INTRODUCTION

Senate Bill 823, passed in 2020, prospectively realigns the Division of Juvenile Justice (DJJ) population from the State to California Counties effective July 1, 2021. The bill created the Subcommittee of the Juvenile Justice Coordinating Council. This Subcommittee has convened with the requirements of WIC 1995 to provide county-based care, providing safety and services for realigned youth up to age 25.

TARGET POPULATION

Madera County has one Juvenile Detention Facility (JDF), Correctional Academy program and Secure Track Program all within the same facility. The Madera County Juvenile Detention Facility offers a total capacity to house 70 youth. The facility is designed into 5 separate units as follows: Unit 1A = 15 rooms, Unit 1B = 15 rooms, Unit 2A = 15 rooms, Unit 2B = 15 rooms; and Unit 3 = 10 rooms. Each room has 1 bed and 1 only youth per room. We plan to continue using our facility for in-custody confinement programs, which includes short- or long-term commitments, Correctional Academy and Secure Track treatment for our realignment population. Each housing unit provides adequate space and will allow for services to be effectively provided close to the youth's home and family members.

Madera County's plan includes providing services to all our realignment target population, which includes sex offenders, females, and mentally ill youth. In the unusual event Madera County is unable to provide extensive services and meet a youths needs we plan to contract with other Central Valley counties to provide placement services. Madera County currently has youth committed to our Secure Track Program. Demographics of identified target population for our two prior fiscal years is included on our data graph. Madera County anticipates 2-4 additional Secure Track Youth to be served in the next fiscal year 2024-2025. Madera County will be using our assessment, classification information, age, youths' identity as self-defined, severity of offense, treatment needs to designate a youths housing assignment.

The Juvenile Justice Realignment Block Grant Annual Plan was developed as a summary of philosophy, staffing and services, along with a fiscal breakdown of allotted funds. The sections below describe the fully- implemented, plan through Fiscal Year 2024-2025, with the understanding the Subcommittee can adjust the plan, as appropriate, moving forward. This document concludes a financial breakdown of the last and up-coming fiscal years showing the implementation steps needed to fully execute the plan.

Below is a chart showing Madera County's projected funding for the next fiscal year:

Fiscal Year	Funding
FY 23/24	\$530,755
FY 24/25	\$577,000 estimate

Evidence-Based Practices

Madera County and the Probation Department are committed to Evidence-Based Practices (EBP). EBP includes a wide variety of practices, programs, and treatments that have been validated through meta-analysis to reduce recidivism by addressing criminogenic needs and building on supportive factors. The core of EBP is an evidence-based assessment. Furthermore, to respond appropriately to cultural diversity, it is important to identify the County's demographics and have relatable staff. Madera County Hispanic/Latino population is 60%, followed by White 31%, 4% African American, with the remaining consisting of all other races (2023 US Census Bureau).

Madera County Probation Department utilizes Evident Change, prior the National Council on Crime and Delinquency (NCCD) Juvenile Assessment and Intervention System (JAIS) for juveniles, and the Correctional Assessment and Intervention System (CAIS) for adults to identify criminogenic needs and risk level. Individualized case plans are developed from the outcome of the assessment that focus on dynamic risk factors that may lead to criminal behavior and supportive services to minimize the likelihood of negative behaviors.

In addition to an assessment and case plan, evidence-based treatments are best practices proven to address criminogenic needs and reduce recidivism. These services are identified in this plan. Sworn and non- sworn staff, as well as contracted service providers, will facilitate these treatment modalities to youth in our care.

In addition to an assessment, EBP include evidence-based treatments. The county plan supports services and programs that promote healthy adolescent development. Services include Cognitive Behavioral Therapy (CBT) programs, Restorative Justice and other best practices proven to address criminogenic needs and reduce recidivism. Other services include Safe Dates (female), All About Being a Teen, Forward Thinking, Courage for a Change, Gang Intervention, Victim Services, Pathways (Sexual Offenses), Fire Starter (Arson), Youth for Christ Mentorship, Inside Out Dad, All Dads Matter, Parent Project, and Behavioral Interventions-Substance Abuse. These services are facilitated by Probation Staff, as well as contracted service providers to deliver these treatment modalities to youth. Our current Community Based Organizations that provide regular services to our youth include government and nongovernment agencies: Kings View, Madera Coalition for Community Justice, Prison Education Project, Project Rebound, Workforce, Youth for Christ, Behavioral Health, and mentors.

SUBCOMMITTEE

The Madera County Juvenile Justice Coordinating Council subcommittee meets at least quarterly to address the county plan. Following AB505 the subcommittee members have voted to amend the by-laws to include a co-chair selection process. The subcommittee has nominated a co-chair and will be presented at a future Juvenile Justice Coordinating Council subcommittee meeting. The subcommittee met on July 26, 2023, October 25, 2023, January 24, 2024, February 21, 2024, and April 3, 2024, to discuss, reviewed and provided input by the committee to submit in the county plan. The county plan was updated and approved by the majority of the subcommittee on April 24, 2024.

Trauma-Based Needs

Madera County is dedicated to a Trauma Informed care approach and will continue providing training to our staff to recognize and understand that many youths have experienced trauma in their lives. Providing services to the youth and staff to develop positive interactions and to support these ongoing training efforts. The facility Lieutenant will assist the Probation

Department's Training Manager in researching and coordinating formal and informal training for the Department and our collaborative partners that focuses on Trauma Informed care to enhance current training efforts already in place. Additional training will be offered to our staff that focuses on Transgender, Gender nonconforming, and intersex youth.

Family Engagement Programs

Madera County understands the need for promoting healthy and bonding families. The plan includes family visits and contacts with whom the youth identify as family and extended family are conducive to their overall safety and well-being.

Secure Track Support Team

The Secure Track Support Team (STST) is a panel of staff and family members involved in a youth's life who provide support and assistance to the youth as they progress through the Secure Track Program. The team includes the youth, the youth's parent(s)/guardian(s), Detention Facility Secure Track Case Manager, Probation Program Specialist, Clinician, and the youth's assigned Deputy Probation Officer (DPO). The team may also include other individuals identified by the youth and/or the youth's family who are invested in the youth and the youth's family's success. STST meetings are held every 45 days in-person at the facility or more frequently as needed.

> Family visits

Weekly visiting is accessible to family members to continue and further develop strong family bonds. Visiting is at the facility in person and offered virtually. Visiting includes additional family members, such as siblings, grandparents, spiritual advisers, and mentors. As the youth progress through the program, they may expand their visiting to close friends who serve as constructive influences. For youth who are parents, opportunities are available for regular child visits. Youth have onsite visits with their children and their parent/guardian. Child visits may include both the youth and the other parent to allow for greater family unity.

> Parenting classes

If the youth is identified as a parent, classes are offered through Parent Project, with the addition of Family Counseling Treatment. Youth identified as parents will be provide access to this, and other appropriate services to support positive parent-child relationships and bonding.

> Transportation

Madera County encompasses vast rural areas, which may present difficulties for family members to visit. To assist these family members and eliminate as many transportation barriers as much as possible, family members may be issued gas cards.

Faith-based organizations

Youth and family members will be offered engagement with faith-based mentors. Youth have the right to practice their religious or spiritual beliefs including religious services and activities. Youth also have the right to refuse to take part in religious services or activities.

Culturally Responsive Practices

In March 2023 taken to Madera Community College to participate in an educational day to honor and recognize Dolores Huerta for her many accomplishments specifically fighting for farm workers' rights. Prior to the event, our youth watched educational videos, documentaries about Dolores Huerta and Cesar Chavez. Culturally responsive programs and services will continue to be provided for all

staff and youth. Recognizing the importance of Cultural holidays have been promoted throughout our facility by displaying art and educational posters. Celebrating Black History Month in February, youth participate in the local Martin Luther King Jr school annual speech contest, educate youth about Women's History Month in March, and invite women advocacy groups to speak with youth. LGBTQ+ in June, National Hispanic Heritage beginning September 15-October 15. National Native American Heritage month by inviting our local tribes and leaders to speak with our youth in November or attend local Powwows. Our justice partners, community-based organizations and Probation Program Specialist understand the importance of teaching culturally responsive programs. Every month all youth are provided an educational cultural packet highlighting importance cultural events. The youth receive incentive points for completing the packets. Funds will be used for trainings, services, and cultural field trips for youth.

Safe Place

All youth will be asked to identify a "Safe Place" at least 90 days before release. This information will be included in their case plans. Through experience, the identified safe space may not always be a youth's home environment. To promote healthy family engagement, we will work with each youth to identify a safe place to reunify. This will assist in their transition back into the community and solidify the identity of the "family" with whom they should continue healthy relationships.

Facility Plan

During the initial booking process into the Madera County Juvenile Detention Facility all youths are screened for specific individual characteristics and behaviors to assist the facility classification officer in deciding housing placements, programmatic and medical/mental health needs. One tool used is the Sexual Orientation, Gender Identity, and Expression (SOGIE) questionnaire. Youths are also screened regarding their current and past experiences with mental health challenges, victimization, trauma, and suicidal history. Gang associations,

prejudices and their own perceived safety concerns are also taken into consideration.

Any significant concerns resulting from one area, or multiple areas, of the screening process will be taken into consideration when deciding appropriate classifications and suitable housing for our youth. Classification is also

reviewed on all youth as required by Board of State of Community Corrections Title 15 Section 1352. The Madera County Juvenile Detention Facility Administrative Supervisor reviews classification weekly to ensure a youth has the most opportunities in a program.

Staff and youth safety and security are essential to overall operations. Youth Correctional Officers provide supervision and guidance 24 hours a day. They are trained in de-escalation techniques as well as defensive tactics. Youth have the opportunity to redirect negative behavior and are provided with incentives and rewards for positive behavior and accountability. The Correctional Academy Program is an option for our targeted population and 5 beds have been identified for our Secure Track Commitments. The Correctional Academy Program is a collaborative between the Madera County Probation Department, Madera County Superintendent of Schools, Madera County Behavioral Health Services, and participating community-based agencies. The Correctional Academy Program is a court ordered commitment that includes both custodial and re-entry phases. The program is developed from a correctional model for youth and utilizes a combination of structure, redirection, physical conditioning, and accountability, using a nurturing approach and offering evidenced based programs. If a youth does not meet the criteria for the Correctional Academy Program an alternative program will be identified addressing their specific needs and goals.

To accommodate our long-term commitments all secure track youth have been provided an Evolve foam mattress for better comfort and quality. A desk and stool have been installed in each room. All secure track youth are assigned a laptop for education and vocational purposes. Furniture has been ordered for youth's rooms, which includes shelving and floor nightstands and additional home like furnishings for the units to

accommodate long- term commitments. Flooring, interlocking modular tile has been ordered for our outdoor recreation yards from Snap sports Athletic Surfases. Sport equipment has been ordered; workshop is still being expanding to include air vents. Electricity was added to the workshop, electronic security upgrades are near completion, upgraded camera systems inside and around the facility have been installed. HVAC upgrades have been installed, wireless access points for faster wi-fi have been installed throughout the facility. A certified wood and welding instructor will need to be contracted to facilitate classes for youth.

Probation Program Specialist

A Probation Program Specialist was hired full-time on December 1, 2022, assigned to the facility as the re-entry, education, and programming staff member to ensure we are providing appropriate, coordinated services to youth. This position is not part of unit supervision and focuses on youth services and continuity of care.

The Probation Program Specialist's primary functions are to ensure youth have the necessary tools and support to help overcome any barriers they face and successfully navigate through their programs with the goal of positively transitioning into the community. The Probation Program Specialist has been trained in a wide array of evidence-based and best-practice treatments, programs, and services. Given the increase of lengths of stay, Secure Track Youth will be wide-ranging in age, and will reach adulthood while in our care. The Program Specialist will provide services and skill-building efforts to supplement on-site supports in place, while preparing a youth for re-entry and establishing connections for services that can be continued upon release from custody.

Support Programs

Based on the risk level and needs of the youth, a single dedicated caseload assignment will be key to successful re-entry into the community and Less Restrictive Placements. A Deputy Probation Officer (DPO) is assigned to all Secure Track Youth and is meeting with youth regularly to develop a positive relationship with the youth. The assigned DPO will provide case management services, court reviews, stability and provide input for our youths individualized case plans to maximize the chance for successful re-entry. It is anticipated youth may need food, clothing, transportation, and vocational or educational supports post-release. Additionally, there will be occasional needs for housing, sober living homes, or other temporary housing options. Funds will be designated to support efforts in these areas. This plan includes but is not limited to the support programs below to promote healthy adolescent development.

> Madera Coalition for Community Justice (MCCJ)

MCCJ is a nongovernment, community-based provider of diverse volunteers who provide weekly Youth Enrichment Programming for our youth. MCCJ's vision is to combine education and leadership as the cornerstone of a sustainable community, in which youth live their lives consciously choosing actions that ensure a healthy quality of life for all. Its mission is to harness the collective vision, energy, and talent of youth and to parlay those expressions in

ways that are collaborative and constructive to better the community by providing them with character and leadership development, educational tools, and access to a network of resources.

Kings View

Youth Empowerment Program is a community-based provider who offers peer learning activities where youth learn substantive subjects and communication skills, discuss current events, culturally responsive, engage in team building, esteem-building, and leadership development. These learning and interactive activities provide a structure to develop,

nurture and reinforce positive character strengths in a supportive and secure environment where youth feel valued, are given tools to deal with stress and peer pressure, make positive choices, learn risk-taking, build relationships, engage in decision-making, and develop leadership qualities.

Prison Education Project (PEP)

PEP provides academic and life skills courses in-person and on-site by formerly incarcerated justice involved individuals who have graduated from college and provide expansion of higher education and vocation opportunities to our youth in custody and provide post incarceration resources.

Employment-Madera County Workforce Investment Corporation

Workforce began contracted services for our youth in and out of detention January 1, 2022. The program includes workshops, assessments and career planning, subsidized employment, on-the-job training, job placement, prerelease services, education, vocational training, connections to community-based organizations and other services to assist in transition back

to the community. Future plans include youth participating in paid work-based learning activities to develop employment skills and gain hands on experience in an occupation of interest or sponsor vocational training. Incentives may be available upon reaching benchmarks such as completion of workshops, training, workbased learning activities, and/or employment & retention. Supportive Services and needs related payments may also be available on a case-by-case basis. Workforce services would begin a least 90 days prior to release and continue post-release through the Workforce Assistance Center. The Workforce Investment Corporation, and the Partner agencies at the Workforce Assistance Center, provide a full array of education, training, skill development, and job placement services to support individuals in entering a career pathway that leads to quality employment opportunities and economic self-sufficiency.

Madera Community College

Madera County Juvenile Detention Facility (JDF) collaborates with our local community college toprovide virtual classes. We currently have enrolled on on-line college classes with Madera Community College. Self-sustainability is key and is being accomplished by out Secure Track Youth. Enclose has a 4.0 GPA in college. Our youth are offered continued education and/or vocational certifications for the youths chosen career path. Options include welding, construction, accounting, and wood working.

> Job Corps

Job Corps is an option for re-entry into the community for those qualifying candidates. Job Corps offers education by earning a high school diploma, job training and career pathsin 10 industries. Job Corps sets forth the candidate eligibility criteria, which includes minimal risk to the community and considers the duration of commitment in custody.

> California Conservation Corps

The California Conservation Corps is a resource that may be considered for our realignment population. Teaching Youth to protect and enhance California's natural resources and communities while empowering and developing young adults through hard work and education. Offering on the job and classroom training.

Pine Grove Youth Conservation Camp Services

Madera County Probation Department has an existing contract with Pine Grove Fire Camp since July 2023. Although Madera County currently does not have any youth placed at Pine Grove, it is a program that may be considered for our youth. There have been current changes in statutes that align with the mission of continuing to provide a resource to youth. AB 145 and amended WIC 730 to add subsection (a)(1)(D) that allows for the court to order placement of a ward to Pine Grove and outlines the process for doing so.

Madera Rescue Mission

Transitional Housing is offered through Madera Rescue Mission (MRM). The MRM provides essential needs such as food, clothing, shelter, Christ-centered addiction recovery, spiritual rebirth and hope that leads to fulfillment in today's workplace.

Housing Programs

Community Action Partnership of Madera County (CAPMC)

Where the youth plans on residing will be identified in the case plan within 30 days to work towards re-entry goals. Understanding circumstances may change and having a home planned for the youth to transition to is key for success. CAPMC provides programs and services to assist in housing 18-25-year-olds, leasing apartments, and is income based. Additional local housing programs offered include Rapid Rehousing, Homeless Housing Assistance Program(HHAP) and CAPMC Help Center will support with case workers.

Department of Social Services (DSS)

DSS offers Transitional Adult Youth (TAY) services for the Transitional Housing Program and Housing Navigation and Maintenance Program that services youths between the ages of 18-25 (through the age of 24) in need of housing – rental assistance, housing services, security deposits, moving expenses, utilities. The programs put a priority on foster youths, and juvenile probation youths. In Madera County

Mental Health

Madera County Behavioral Health Services is the provider of mental health services on-site. A fulltime behavioral health clinician is assigned at the Madera County Juvenile Detention Facility. An additional clinician-substance abuse counselor is on site part-time. Our clinicians provide evidence-based, and best-practice group programsas well as individual therapy and evidence-based education on substance use disorders, relapse prevention, trigger identification, relapse/reoffending, and teaching effecting coping skills to improve their personal relationships and find ways to discuss their addiction or other problems with family in efforts to create a positive support team. Our Behavioral Health Clinician also provides family, individual and group sessions with our target population and is involved with monthly meetings and input on the Individualized Rehabilitation Plans. Well-Path Medical Services is the County's contracted provider for medical and crisis interventions and oversees medication management in conjunction with Madera County Behavioral Health Services. Grant funds may be used to cover cost of clinicians, training, and program curriculums.

Sex Offender Treatment

Madera County Behavioral Health services provides sex offender curriculum, Pathways for ages 12-18. For youth ages 18-25 needing treatment, Madera County Behavioral Health offers "Treating Sex Offenders: An evidence-based manual," which offers an innovative group treatment approach that targets deficits in self-regulation. For any youth needing sex offender treatment it will be provided on-site in a private counseling room. Grant funds may be used to cover cost of provider and curriculum.

Regional Effort

Our plan is a collaborative effort. The Probation Department has primary responsibilities for security of our youth and have agreements for services and treatment with Madera County Superintendent of Schools, Workforce Development, EDOVO tablets, Behavioral Health, Youth for Christ, and various volunteer groups. Well-Path medical provider is also contracted for medical and crisis intervention services. Madera County Juvenile Detention Facility accepts youth from other counites and have contracts for youth placement in our facility with El Dorado, Mariposa, and Mendocino. There are other counties currently in discussion for agreements with Madera and Madera County Probation Department will be contracting with Fresno our neighbor county in the event we need to place a youth. A youth, depending on their circumstances or specialized needs, may benefit from an out of county custodial placement. It is prudent to set aside funds to ensure all youth have optimal opportunities to be placed in a program that best suits their needs.

► Education

Madera County Probation Department partners with the Madera County Superintendent Schools to provide on-site teachers in a classroom setting who provide education to all youth up to 18 years of age to achieve completion of their High School Diplomas. Juvenile Detention Facility's has installed internet wireless access points throughout the facility.

Efficient and operational internet system to provide the youth with monitored access for

educational purposes.

Madera Community College

Madera County Probation Department Probation Program Specialist has assisted our Secure Track Youth to enroll into Madera Community College online by obtaining all required documents to submit and complete FAFSA.

Madera County Workforce Investment Corporation

Madera County Probation Department contracts with Madera County Workforce Investment Corporation to provide our youth with digital literacy, financial literacy program, banking information, Life skills, work-based learning, and opportunities for workplace training. There are two curriculums offered based on age or development. The Correctional Community Transitional Program (CCTP) 10-week curriculum is targeted for the 18–25-year-old population. The IMAGO lesson plans are suited for the younger population, 12-18 years of age.

2023 Data: CCTP 10 Week curriculum 18-25 Youth In-Custody Workshop:

Total Youth Served: Individuals Completed and Certificate Issued-

*Limited numbers of older youth in custody to refer to the 10-week workshops.

2023 Data: IMAGO 7 Day curriculum 12-18 Youth In-custody Workshop:

Total Youth Served: 69 Individuals' incomplete- 31 Individuals Completed and Certificate Issued- 38 *Incomplete individuals were released early.

Master Gardeners

The Master Gardener Volunteer program for Fresno and Madera Counties is operated through the University of California Agriculture and Natural Resources and offers our youth an opportunity to participate in a Master Gardeners Workshop and groundskeeping experience. The youth then participate in various projects throughout Madera and Fresno. At each new site, the youth are presented with a 15-minute workshop covering the days' activities and a detailed explanation of its process. The youth are taught how to grow vegetables, prune trees, different ground coverings, tool safety, clearing and preparing flowerbeds for new landscaping. Madera County youth also maintain the garden located in the back of our facility preparing flowerbeds for new landscaping.

Leaders are Readers

Leaders are Reader's incentive program includes organizing the facilities libraries, book clubs encouraging youth to write and maintain journals and establish a relationship with local libraries. Youth are provided books to read for additional incentives by submitting a reading comprehension map and completing a book report of five paragraphs. It creates individual plans and vision boards to give a sense of purpose and direction. In 2023 a total of 68 comprehensive book reports were submitted by youth. January thru April 2024 a total of 7 comprehensive book reports have been submitted by youth.

Edovo Tablets since 2016

All youth are provided an edovo tablets for educational and vocational programming. The edovo tablet also offers movies and music with expansive rehabilitative-based programming for our youth. Edovo offers resources that make a difference for justice involved learners and the platform allows us to add relevant information such as drivers test questions and Youth Bill of Rights.

Incentive Program

Rosa's Pantry Incentive Program is designed to acknowledge and reward youths who have met and/or exceeded expectations in 5 fundamental areas while in the Juvenile Detention Facility. Each week, the youths are given the opportunity to purchase items using Probation Bucks gained by earned points. Items include upgraded earphones, upgraded shower sandals, soups, chips, drinks, snacks, and other incentives.

The following 5 fundamental areas are graded daily:

- Room and bed cleanliness and orderliness
- School participation and effort made.
- Programming participation
- Respectful Communication and Behavior shown towards peers and staff.
- Hygiene showering, laundering clothing, maintaining facility guidelines.

Meet and Greet

Meet and greet introduces our youth to their community and educates them on the "It takes a village" mindset to succeed. We have youth meet current state officials in office, university representatives, military personnel, local business owners and positive entrepreneurs who share their journeys. Getting to know our community members may help reduce or

significantly eliminate the stigma of incarcerated youth. It will also help develop the importance of community, and a sense of belonging to a group larger than themselves.

Auto Detailing

Youth will continue to learn from local professionals how to wash, detail a vehicle, and learn basic car care.

Retaining Youth in the Juvenile Justice System

Madera County last youth transferred to the adult criminal justice system was January 2021. The Probation Department will continue to staff cases with the Juvenile District Attorney, Public Defender, and Victim advocate if applicable. The intent of initially staffing these cases will be to provide input on the rehabilitative benefits and local programs for youth to remain in the juvenile justice system and consideration of public safety. Recognizing better life outcomes for youthful offenders may be contributed by keeping cases in juvenile court and reducing recidivism, less victims, and safer communities. Additionally, legislative changes to Transfer Hearings (AB2361) amends Welfare and Institutions Code 707 and requires the court find by clear and convincing evidence that a youth is not amenable to rehabilitation while under the jurisdiction of the juvenile court.

Data

The Madera County Juvenile Justice Coordinating Council Multi-Agency Subcommittee is committed to providing accurate and relevant data upon which informed decisions are made regarding what is working, what is not, and where resources can best be applied for our youth. Data is collected on all youth, tracking completion of High School, college enrollment and completion, Workforce, vocational programs, Food Handlers completions, youth taken to obtain CA IDs, open Bank Accounts, Cal/OSHA certifications, and referrals to other agencies to measure success. Madera County Probation Department case management system Caseload Explorer, Automon is used to collect demographic information on youth. Outcome Measures will be utilized to determine the results of our programs and services. A Probation Department Analyst is assigned to collect data and our multi-agency, and services providers also collect and provide data. Committee oversight will help ensure the plan is adhered to and followed, allowing programs and intervention support to continue. Attached is Madera Youth data on services completed.

Summary

It is the goal of Madera County to provide safety and services to all youth as they identify and to maximize their success both while committed and post-release. This can be accomplished by providing structured, rehabilitative services, step-down programs, in an environment that focuses on Trauma Informed and anEvidence-Based approaches. This will be a collective effort that includes our collaborative partners. Madera County is committed to positive outcomes and continues to review and modify the County's plan as needed.

Progress Report

Progress made from the previous calendar year include hiring one Program Specialist to provide additional support in custody and re-entry releases. Additional training was provided to our Program Specialist to facilitate programming. Electricity has been added to the new workshop infrastructure. All Secure Track youth have been provided a laptop for education and are enrolled in on-line college classes. Wi-Fi has been installed throughout the facility. Contracted services have been completed and are being amended for additional services with Workforce Development Board. The Guardian RFID contract has been completed to add safety and security measures for safety checks.
