

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

| Local Educational Agency (LEA) Name | Contact Name and Title | Email and Phone |
|--------------------------------------|--|----------------------------------|
| San Mateo County Office of Education | Nancy Magee Superintendent of Schools | nmagee@smcoe.org 650-802-5554 |

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

Funds received through the Budget Act of 2021 are included in the 2021 - 2022 Local Control and Accountability Plan.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

As the San Mateo County Office of Education, we received additional funding in the amount of \$190,000.00 to be used over three years through Foster Youth Direct Services funding. These funds were allocated to be spent on supporting the direct service needs of Foster Youth. This fund is currently supporting a newly-hired AmeriCorps Fellow who is working toward mentorship and life-skills opportunities for foster youth. In addition, the AmeriCorps Fellow is creating a system to assure that all foster youth complete the Free Application for Federal Student Aid forms.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

While written into our 2021 - 2022 Local Control Accountability Plan, many partners were involved in the decision to use a portion of AB86 In-

Person Instruction funding toward the continuation of Gateway Community School for the 2021 - 2022 school year. Prior to the 2021 - 2022 school year, in March of 2021, considerations had been made to close the Gateway Community School due to the low enrollment and the high cost to districts in our fee-for-service model. After discussions with our partner districts, our Board of Education, the staff and union, as well as parents and students, and with the support of the County Superintendent, we determined to shape a new model as a pilot for the 2021 - 2022 year. The AB86 funds support a variety of resources for the expelled students and/or students with discipline issues, students with special needs, students of color, and second-language learner students that make up this school population.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

The American Rescue Plan Act (ARP) and the Federal Elementary and Secondary Emergency Relief (ESSER III) plan supported several initiatives to address safety and academic needs at the court and community schools. Actions funded to support continuous and safe in-person include:

- Training for custodians, paraeducators, bus drives and teachers on the use of cleaning solutions and disinfectants (use requires a certificate of training)
- Coordination with Worksite Labs and Schools to provide ongoing COVID testing and contact tracing for students and staff, and
- Upkeep of HVAC Systems to provide air filtration

Because of these actions to ensure safety among students and staff, we experienced success in bringing students and teachers back on campus for the 2021-22 school year.

To address the impact of lost instructional time due to the COVID-19 pandemic, we utilized ESSER III funds to provide individualized social and emotional support and academic interventions. Specifically, we contracted with two Youth Development Specialists to meet with individual students two times per month and with an art therapy consultant. We successfully provided more opportunities for students to safely attend field trips focused on cultivating personal leadership skills toward building a positive school community. Most notably, we safely sent students to Camp LEAD, a research-based experiential residential high school program that empowers students to create positive change on their school campuses and within their communities.

To support the growing technology needs highlighted in the 2021 -2022 Local Control and Accountability Plan, we allocated ESSER III funds for technology applications, including:

- Talking Points (which is used for fast communication with parents in multiple languages),
- Go Guardian (which supports safe web browsing for students while doing research), and
- Zoom licenses for staff (which continued to be useful for meetings during the continued waves of COVID-19).

We realized we needed to provide additional technology devices and allocated an additional \$23,000.00 for Chromebooks and iPads. The Instructional Technology team at SMCOE prioritized our school programs, and we were able to purchase, distribute, and implement these tech tools quickly and systemically. Additional use of ESSER III funds include network improvements for greater access to wireless internet, purchasing a new student information system, and a Windows Server upgrade.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.

All funds received for the 2021 - 2022 school year are aligned to the 2021 - 2022 Local Control Accountability Plan Goals and Objects as well as the Annual Update. Funds support the continuation of serving students through the Gateway community school, an additional temporary “fellow” to specifically support Foster Youth in San Mateo County, and the ongoing technology needs in education.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA's 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA's educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: “A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: “A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: “A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (<https://www.cde.ca.gov/fg/cr/reliefunds.asp>) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (<https://www.cde.ca.gov/fg/cr/>) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: “A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: “A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

| Local Educational Agency (LEA) Name | Contact Name and Title | Email and Phone |
|--------------------------------------|--|------------------------------------|
| San Mateo County Office of Education | Nancy Magee Superintendent of Schools | nmagee@smcoe.org (650) 802-5554 |

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The San Mateo County Office of Education is one of 58 county offices of education in California, serving as a liaison between the California Department of Education (CDE) and San Mateo County's 23 local school districts. The County Superintendent, Nancy Magee, assumed office in 2018. The County Superintendent works in partnership with the County Board of Education which acts as the governing board for the San Mateo County Office of Education Court and Community Schools program. Beverly Gerard is Board President and the trustees include Susan Alvaro, Chelsea Bonini, Hector Camacho, Jr., Jim Cannon, Ted Lempert, and Joe Ross.

The San Mateo County Office of Education's Court and Community Schools comprise two Court schools and two Community schools. The Court Schools provide education for youth who are incarcerated and are wards of the Juvenile Court System. These schools include Hillcrest School, located in the Youth Services Center, and Margaret J. Kemp School, a therapeutic, residential camp setting for girls. Gateway Community School is designed for students who, through the discipline process are referred and who can benefit from an alternative and small school setting. Currently, students may be placed into Gateway Community School when referred by their home district of residence or expulsion. Students may also be referred by the Probation Department or the Human Services Agency. San Mateo County Office of Education's other community school is Canyon Oaks Youth Center, a therapeutic, level 14 residential placement for students with significant mental health needs.

Prior to the Covid-19 pandemic, the enrollment at Hillcrest Court School and at Gateway Community School had been declining due to fewer incarcerations, district reforms incorporating social emotional learning curriculum and restorative and trauma-informed practices on school campuses. In addition, when the Covid-19 pandemic began, many students at Hillcrest were released and monitored at home. Due to online learning in school districts, expulsions dropped and few needed the Gateway Community School setting since March 2020. While students came and went in the 2019 - 2020 year with an annual enrollment of 219 students.

In the 2020 - 2021 year, approximately 150 students were admitted to our programs. Fewer were with us as long-term students (90 days or 1 semester). Of the students, 47.6 were socio-economically disadvantaged, 44.8% were English Learners, 2.1% were foster youth. Of our population, 87.4% were students with special education designation and 51.7% were Hispanic.

For the 2021 - 2022 there is currently an enrollment of 115 students in our programs: 14 at Canyon Oaks, 29 at Gateway, 63 at Hillcrest, and 9 at Kemp. Of those populations, 100% of Canyon Oak's population, 52% of Gateway's population, 29% of Hillcrest's population, and 33% of Kemp's population are students designated with special education services. 63.6% are Hispanic.

In terms of trend data, there is a lower enrollment overall and fewer students entering with special education needs; however more students at Gateway entered with special education needs around mental health - thus shifting our goals to adding a therapeutic program in the 2022 - 2023 school year.

Through partnerships with our district schools and through pandemic relief funding for schools, we recalibrated and launched Gateway Community School as a new model in the 2021 - 2022 school year. This model focused on building emotional resilience. Students were referred due to their behavior, socio-emotional, or mental health needs as well as their needs through special education services and through expulsion or alternative to expulsion agreements. Through the comprehensive support and improvement funding, we contracted with Effective School Solutions to provide wrap-around services to students who needed more intensive counseling support. While students 7th grade through 12th were able to enter the program, we served only one middle school student who left midyear to return to district. The rest of the students, approximately 29 students who came and went, with a stable population of approximately 20 students, made progress as shown through their credits, behavior, surveys, and grades.

Our collaborative partners included Effective School Solutions, Probation, San Mateo County Behavioral Health and Recovery Services, Juvenile Court Judges, Private Defender's Office, Project Change and the College of San Mateo, CASA, 17th District PTA, Juvenile Justice and Delinquency Prevention Commission, Acknowledge Alliance, Fresh Lifelines for Youth, Health Connected and many others. These integrated services provided students opportunities and caring support. These system partners strive to keep students at the center of every action and to communicate, collaborate, and align programs and services in order to reduce barriers, provide opportunities, and ensure personalized support so every student can achieve success.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

All Data Points Below are from the 2021 - 2022 year.

Due to low enrollment and unstable student cohorts, dashboard data is not as meaningful as local data metrics. Below are some of the statistics that demonstrate successes:

78.6 % of teachers continued to integrate technology in daily lessons

85.7% of staff report getting the professional development they needed to support the needs of students returning to school during the COVID-19 pandemic.

The court and community schools prepared for and completed a WASC (Western Association of Schools and Colleges) six-year review in the fall 2021 with a spring 2022 visit and attained another six-year accreditation with a three-year review.

Staff reported 'beginning knowledge' on how to apply hands-on, project-based learning in the new maker's space and all who attended the Digital Pedagogy professional development had success with at least one project based lesson utilizing the new tools.

100% of students had access to an incentive program (a program in which students are incentivized through goal setting and achievement) within their school; 85.7% of teachers stated it may have helped or did help in terms of creating motivation for students.

Between 70% and 80% of the 28 students surveyed say they feel they are having strong learning experiences in math, English, science, and history.

82.1% of 28 students say they have an opportunity to express themselves at school.

96.4% of students feel respected at school.

92.9% of 28 students feel they have an adult they can talk to at school.

100% of students across all programs earned at minimum 5 recovery credits per semester.

85% of students in the 2021 - 2022 year are earning a 2.0 or higher.

Honor Roll was earned 57 times during the 2021 - 2022 year.

90% of students earned credits in their required high school courses.

WASC (Western Association of Schools and Colleges) rated the following areas as "Effective" or "Highly Effective"

Collaboration

Vision and Purpose

Governance

Data-Informed Decision Making

Professional Development Supporting High Achievement for All Students

Parent Community Engagement

School Culture

Personal, Social and Academic Support

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Academic Focus:

It is not uncommon for our students to have fewer opportunities for acceleration and advancement throughout their years in school and to enter our program behind on credits.

SMCOE Court and Community students continue to perform below their district peers on standardized assessments in both math and language arts as reflected on the California Dashboard. In the 2020-21, 6 out of 10 students scored as "met" or "nearly met" standards in English Language Arts, 2 out of 8 students scored "nearly met" in math, and 3 of 4 students scored "nearly met" in science. Again, the COVID-19 pandemic did not allow for all testing to take place as usual.

In 2020-21, our Court and Community student population reflected 47.6% of students qualified as socio-economically disadvantaged, 44.8% qualified as English Learners, and 2.1% qualified for foster youth status.

As part of our WASC (Western Association of Schools and Colleges) review, the Committee rated the areas of Access to Rigorous and Relevant Standards-Based Curriculum, Challenging and Student-Centered Learning, and Using Assessment to Drive Instruction as "Somewhat Effective." In response to these areas designated for improvement in our WASC report, we will continue to focus on the standardization of curriculum and assessment across programs, adopting and implementing standards-aligned curriculum and delivering staff development on project-based learning and student-centered design with SMCOE's Innovative Technology Coordinator and the Teacher on Special Assignment for Assessment and College and Career.

Social-Emotional Needs

The greatest needs we identified for our students in 2021-2022 centered on student well-being and whole-child student approaches.

Between March 2020 - Spring 2022, it has been true that students countywide demonstrated needs for increased mental health services. Our Court and Community students have been especially vulnerable. In the Gateway program, we prepared for this inevitability by contracting with Effective School Solutions, clinical mental health partners who offered targeted supports for student mental health services at Gateway for the 2021 - 2022 year.

Due to COVID conditions, the students who remained in custody in juvenile hall were students with serious crimes, while students who entered Canyon Oaks residential mental health facility were also students with some of the most severe mental health needs. Additionally, most of the students who entered the Gateway Community School program in the 2021 - 2022 year have had a designation of ED (Emotionally Disturbed) or OHI (Other Health Impaired). While the support from Effective School Solutions did ultimately provide effective and needed supports for current Gateway students, we have also realized we need a more specialized program to serve students whose mental health needs were designated as severe through their individualized education plans.

In 2020-21, 87.4% of students across all programs entered with a special education designation and a need for expanded services. In 2021-22, approximately 75% of Gateway referrals were for students who were being expelled and who had special education services. Given the high needs of students with serious mental health needs, we are moving forward with the development of a therapeutic program for the 2022-2023 school year. The first cohort of students to begin in this new therapeutic model will be focused for 7th, 8th, and 9th grade students.

In the meantime, to address the importance of reengaging students in their learning, SMCOE Court and Community programs will continue to receive robust college and career planning, have access to career technical education courses, and will actively work on developing goals. On a survey given to students, 70% of our students stated they had access to college and career planning, career technical education courses or had future goals set in place.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

In the Local Control Accountability Plan there are four goals; in addition, our WASC six-year accreditation will determine future work as well.

The first goal in our LCAP is a 'broad' instructional goal encouraging teachers to use a variety of assessment tools to support student learning, to provide targeted instruction, and teach through a culturally responsive lens. The second goal - a focus goal - creates partnerships with organizations in order to support mental health at all sites. The third goal - a focus goal - supports building a robust career exploration and awareness program and career technical education opportunities for students to experience applied learning, as well as plan for their futures. The fourth goal - a maintenance goal - supports ongoing work serving foster and expelled youth in San Mateo County.

In addition to the above, other highlighted areas are our WASC goals of creating continuity across programs around instructional strategies for English learners and use of formative assessments as strategies to strengthen instructional practices.

Due to the high percentage of special education students in our programs, we will continue to provide robust mental health services and resources. Gateway Community School will continue to serve students with a restorative approach and supports mental health. In addition to this program, in the 2022 - 2023 year, a new therapeutic program will open for students with individualized education plans who have a higher need for support for mental health services. This new program will also be used as a 'step down' model for students who are ready to exit our residential program at Canyon Oaks, but who need a more restrictive environment to adjust to day-to-day school and home life before returning to their home-district-of-residence.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Gateway Community School

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

During the 2019-20 school year, Gateway was identified for CSI due to high suspension rates. We continuously monitor student suspension rates. As a result of our increased awareness of the high levels of suspension rate, we conducted a root cause analysis. We realized that our teachers need support for de-escalating and navigating scenarios that would traditionally result in a suspension. Therefore, we provide training in Restorative Practices, Community Resiliency Model (CRM), and Trauma attuned practices. We also recognize that the COVID-19 pandemic affected our students and families at a higher rate. Therefore our teachers are committed to working collaboratively and are united in their goals for creating and maintaining clearly defined, inclusive, and nurturing learning environments for all students. Finally, to increase our students' capacity to navigate scenarios that lead to suspensions, we are contracting with outside services to provide more individualized mental health support. We are contracting these services because our teachers and staff have limited capacity to provide the necessary interventions.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

In addition to our current LCAP planning procedures, SMCOE is actively involved in the Western Association of Schools and Colleges (WASC) process. This cycle is a robust way to complete a self-study on all aspects of the program. The staff, parents, students, and community have engaged in thoughtful planning around school improvement. Due to the reflective self-study cycle of the WASC monitoring process and focusing on the LCAP and the aligned WASC goals, our schools and students will continue to improve. In addition, the LEA will continue to support monitoring the data from all adjacent data systems to inform our LEA and our school programs. Specifically, we continuously monitor suspension rates and teachers' implementation of restorative practices. Implementation data is obtained through staff and student surveys which allow for reflection on how the services are assisting in students' overall well-being and how the services are meeting each student's goals. Our contracted mental health experts provide robust data-keeping and tracking methods. We will continue implementing practices and services based on the overall success and make adjustments as required. For more information about our recent WASC accreditation visit and self-study, please utilize the following link:

https://docs.google.com/document/d/1agyKRSCgj9uEzdd1yc7izUjO8Dzr5_hfJYtxhgtGln0/edit

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Court and Community Site Council - 8/18/21, 9/29/21, 10/27/21, 12/8/21, 3/30/22, 4/27/22
Court and Community Staff & School Site Administration - 9/22/21, 10/13/21, 11/3/21, 12/1/21, 12/8/21, 1/19/22, 2/9/22, 3/2/22
Student Meeting - 9/29/21
Student Surveys - April - May 2022
Parent Surveys - April - May 2022
Stakeholder Engagement: Including Partners, Parents, EL Parent Advisory, Special Populations including Special Education partners and services and Bargaining Units - 1/12/22, (WASC Visit) 2/14/22, 2/15/22, 2/16/22, (Evening Meetings) 3/31/22 & 4/21/22
SMCOE Data Team with LCAP Team & School Site Administration - 3/24/22, 4/14/22, 4/28/22, 5/12/22
Feedback Meeting with SMCOE Cabinet - 5/18/22
Feedback from San Mateo County Board of Education - 4/21/22 & 5/18/22

Through the process of evaluation, conversation, and data review, all stakeholders continued to hone in on high-leverage goals. Through many iterations with guidance from stakeholders, the San Mateo County Office of Education developed the current plan.

A summary of the feedback provided by specific educational partners.

The Court and Community Staff discussed a need for strong local measures of gains in knowledge and skills, continued mental health resources, an interest in increasing more career technical education training and consistency across programs. Both parents and students wanted more opportunities and more frequent communication; however while school communication increased via the new Talking Points app, our parent/guardian population engaged less than in previous years as evidenced by only a few returned surveys. (Surveys were sent multiple times, in Spanish and English and multiple phone calls from our bilingual family counselor who attempted to engage them. Parents reported "I am just too busy." That said, we were able to engage parents at a few of our meetings throughout the year. Students provided feedback around the need to focus on mental health which is highlighted in Goal 2. At one stakeholder evening meeting with organizational partners, we discussed the toll of the pandemic on the mental health of students and brainstormed ways to move forward together. As evidenced in the student surveys and in the feedback from the WASC visit, students would like to see more opportunity around college planning, dual enrollment and CTE (Career Technical Education) options. While many students self-report that they do not have a need for English Language services, most of our student population are multi-lingual learners and would benefit from utilizing research-based English Learner instructional practices.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The four aspects most greatly influenced are to have consistent research-based instructional practices at all sites, to continue to work to engage our families in a variety of ways, to provide robust mental health services and to build career technical education opportunities

Goals and Actions

Goal

| Goal # | Description |
|--------|---|
| 1 | Broad Goal 1: By using the accelerated learning process of early identification of educational gaps, increased specific and targeted instruction, formative and frequent assessments, trauma-informed practices through a culturally responsive lens, all students will become effective and engaged learners. By utilizing researched effective strategies across all programs, focused demographic groups such as English Learners will increase their content knowledge and communication skills as shown through frequent formative assessments and determined by the ELPAC (English Language Proficiency Assessment for California). |

An explanation of why the LEA has developed this goal.

Due to the varying lengths of time students are enrolled with the Court and Community Schools, standardized metrics give us limited data. The Court and Community Schools need the ability to utilize clear assessment tools that give immediate measurable data on each student. The data drives what instruction the student needs in order to accelerate their learning. By reviewing all adaptive tool results, including MAP, My Path, and Math and ELA curriculum tools, teachers are better able to quantify the pace and progress that students are making to attain knowledge, skills, credits and grades. Metrics below were chosen as they offer more incremental data points, which through implementation, will allow for progress of student achievement toward their goals.

Baseline Data was created based on the 2020 - 2021 school year data, which as we know was the initial COVID-19 pandemic year. Our data was particularly difficult to obtain as populations were small in all programs, students were often housed at home rather than through County programs, and thus, not educated by SMCOE. In addition, students were in and out of school due to illness as was staff. When we wrote the initial baseline goals, we were also bringing changes to the program at the Gateway Community School. Hence, the baselines below have now been re-established based on real data that we can utilize from this school year. In some boxes, the baseline data is updated to reflect a more accurate portrayal of a starting point.

- Priority 1: Basic Conditions of Learning
- Priority 2: Implementation of State Standards
- Priority 4: Student Achievement

Measuring and Reporting Results

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|--|---|---|----------------|----------------|--|
| Initial MAP Summative Assessment for Students in Orientation Course | 90% of Students Will Complete the Initial MAP Summative Assessment in Orientation Course NEW ESTABLISHED BASELINE 75% | Students are given either MAP or MyPath initial assessment when they enroll at the Court and Community Schools. Out of the students who did not complete MyPath initial assessment, the percentages of student completing Initial MAP tests are below. Reading: 67% Math: 73% (Court Schools: N = 22 Students) | | | 100% of Students will Complete the MAP Summative Assessment in the Orientation Course |
| MAP Summative Assessment after 90 Days for Continuously Enrolled Students (During Winter / Spring) | 80% of Students Will Complete the MAP Summative Assessment after 90 Days of Continuous Enrollment NEW ESTABLISHED BASELINE 75% | Reading: 47% Math: 40% The numbers are lower than expected as we have been testing the students by term. To meet the 90-day requirements, we will have to start testing continuously. (N = 22 Students) | | | 100% of Students Will Complete the MAP Summative Assessment after 90 Days of Continuous Enrollment |

Actions

| Action # | Title | Description | Total Funds | Contributing |
|----------|--|--|--------------|--------------|
| 1.1 | Formative and Summative Assessments for Local Measures | Purchase Digital Tools for Formative and Summative Assessments | \$81,014.00 | Yes |
| 1.2 | Accelerated Intervention Planning and Professional Development | Employ .5 Teacher for Intervention Plan, My Path Assessments, Unit Planning, Data and Professional Development | \$81,219.00 | No |
| 1.3 | Administrative Oversight for EL Program | Expend a portion of funds for Assistant Principal to oversee continuation of English Language services and instructional practices | \$44,838.00 | Yes |
| 1.4 | Special Education Services for Court Schools | Provide a Special Education Teacher and Paraeducator for Court Schools | \$159,889.00 | No |
| 1.5 | Assistant Principal | Employ a .8 Assistant Principal Oversight of Unduplicated Population | \$179,351.00 | Yes |
| 1.6 | County Office Support | Utilize County Office Support for Programs to Serve Unduplicated Population | \$99,540.00 | Yes |
| 1.7 | Paraeducator Support | Employ a Paraeducator Support for English Learner Population as highlighted in Goal 1. | \$88,580.00 | Yes |
| 1.8 | Appropriate Staffing | Employ Teachers and Admin Staff to meet Basic Conditions of Learning | \$687,039.00 | No |

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The substantive difference was the unpredictability of the COVID-19 pandemic. While starting the year with high hopes for higher achievement in our student population, school staff and leaders continued to shift and adjust due to issues related to this particular school year. It was essential to focus on the health of all students and staff first, which included the physical and mental health of all students and staff at all sites. Staffing shortages required our school administrators to substitute and provide covid-testing for students and staff, and in our case, focus in the fall on the preparation for our WASC visit. Staff shifted, one took a job elsewhere mid-year and one passed away suddenly, and we continued to adapt and hold meetings to focus on the needs of all of the students. The landscape constantly changed day to day. Our partner for mental health services, Effective School Solutions, was also underprepared for the needs in our local county and found themselves with their own staffing shortage that impacted our program. Essential to the success was building an incentive program and this, in addition to culture and climate building activities and fieldtrips, allowed for us to move forward. All said, the staff has undergone much professional training over the past two years and they are growing their skills. It is exciting to see students are closer to passing State testing and are making progress in all academic areas as shown by their credits and grades.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences. The differences between the budget and the actuals offset each other: 2 teachers left the program, but we incurred a cost of living increase.

An explanation of how effective the specific actions were in making progress toward the goal.

The actions under this goal allowed us to consider what data might be relevant for such a small and diverse population. By looking deep into data, and not being able to use trends, we are faced with individualizing every aspect of education for each student that comes into our school programs. While we have yet to see gains in some areas, we have set a trajectory toward school programs with positive culture, education that meets the need of each student, engaging curriculum and instruction experiences and strong outcomes.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

In light of the WASC visit this year and our continued desire to focus on specific student groups such as English Learners, we have added a statement to the Goal 1 above: By utilizing researched effective strategies across all programs, focused demographic groups such as English Learners will increase their content knowledge and communication skills as show through frequent formative assessments and determined by the ELPAC (English Language Proficiency Assessment for California). In terms of the 90 day retest assessments, the numbers are lower than expected as we have been testing the students by term. To meet the 90-day requirements, we will have to start testing continuously.

After some discussion, it was decided to add several additional metrics to reflect student progress. This was done due to the continued need to reflect individual progress at the school level and to utilize the data we collect to review how well we are providing education for our students overall. Those metrics that are added are as follows:

Grade Point Average

Honor Roll

Core Class Requirements

Credit Recovery

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

| Goal # | Description |
|--------|--|
| 2 | Focus Goal 2: Early intervention of emotionally fragile students, students with discipline records who have a history of trauma, and students with other social, emotional or mental health needs will be served with a more intensive supports in order to build emotional resilience and self-efficacy and integrate self-regulation tools for a successful educational future. In the first year (2021 - 2022), the identification tools, model, and school system were built in consultation with Effective School Solutions and partner school districts. In 2022 - 2023, the continuation of this goal across all programs will continue and, due to the data showing a need for additional services for special education students with high social and emotional needs, SMCOE intends to add a therapeutic program to the Gateway Community School site. |

An explanation of why the LEA has developed this goal.

We have chosen to focus on this goal due to the data-evidenced gap of embedded mental health services in our San Mateo County K-12 system. Evidence from Healthy Kids Surveys, and parent, student, and school surveys suggest prior to the COVID-19 pandemic there was a need for deeper mental health supports for students than schools could offer. With the pandemic, student needs have only grown. The development of this goal took place in partnership with our school districts. At the end of the first year working with Effective School Solutions, we hoped to see improved student behavior, grades, credits and a willingness to re-engage in learning. Early intervention would mean fewer students needing access to higher level mental health facilities, fewer discipline cases in school, fewer expulsions and a reduced juvenile incarceration rate. The metrics chosen for Goal 2 reflect changes to the program and new ways to assess progress happening in the social emotional realm – both in the student, the school culture and the parental population. In continued partnership with clinical-based support services, we will continue to determine parental barriers toward engagement and work systematically to build relationships between student, parent/guardian, and school. By utilizing these metrics, the students, parents, and staff will be more able to build emotional resilience.

Priority 3: Parent Involvement

Priority 6: School Climate - Engagement

Priority 8: Other Pupil Outcomes

Measuring and Reporting Results

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|--|--|--|----------------|----------------|--|
| Quarterly Staff Survey NEW Change to 'Semester' | 75% of Staff Will Show Use of Restorative Work, Meditation, and/or Affirmations and effective statements in the Classroom REWRITTEN: 75% of staff will embed restorative conversations, meditation or other methods to support the social emotional well being of each student in the classroom | 100% of staff used restorative conversations, meditation, affirmations and effective statements in the classrooms (Staff Survey 14 Responses) | | | 100% of Staff Will Show Use of Restorative Work, Meditation, and/or Affirmations and effective statements in the Classroom |
| Student, Staff and Parent Surveys will show Student Improvement in Self-Awareness, Mindfulness, Self Control, and Optimism NEW - Deleted Effective School Solutions as we decided to focus on outcomes as portrayed by a variety of survey results. | 50% of Students Show Improvement in Self Awareness, Self-Mindfulness, Self-Care, Empathy, Self Control and Optimism | 50% of staff surveyed said that students made progress (14 Responses) 71% of students said that having access to mental health services was beneficial 67.9% of students said having mental health services made the school more positive (28 Responses) 90% of parents/guardians | | | 90% of Students Show Improvement in Self Awareness, Mindfulness, Self-Care, Empathy, Self Control and Optimism |

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |

| 2.5 | Staffing for Community School Programming | Employ Teachers and Admin Staff to meet Basic Conditions of Learning | \$974,669.00 | No |

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There are no substantive difference in planned actions or the actual implementation of these actions. One item of note is that Effective School Solutions, our partner for mental health services for Gateway Community School hired two clinicians that did not stay in their jobs as well as one consultant to work with staff who also left mid-year. However, the third clinician who came to the community school has been a wonderful fit for our student population. In addition, Effective School Solutions allowed their oversight clinician to be onsite often and support the revamped incentive program through working with the staff and school administration. Despite the complexity of the first semester, staffing shortages, and other COVID-19 pandemic issues, Effective School Solutions has been a strong partner.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were not material differences. The differences between the budget and the actuals offset each other: 2 teachers left the program, but we incurred a cost of living increase

An explanation of how effective the specific actions were in making progress toward the goal.

The actions were effective in making progress toward the goal as shown by our data points above. The next iteration of surveys need to align directly with the metrics that we have put into the LCAP. This will allow for clear information and matching data. That said, overall we were able to support the mental health needs of diverse populations of students. Whether they were middle school and high school at Canyon Oaks, or incarcerated at Juvenile Hall, or came to Gateway with behavioral issues and with Emotional Disturbance or as Other Health Impaired diagnosis, setting these metrics and this goal allowed us to stay focused on moving the programs forward. Of our 10 families who responded to surveys, 90% of the respondents rated the programs as 5/5 in terms of their satisfaction with academic programming for their student and 100% of the families that responded to the surveys stated that they were effectively communicated with regarding their student's academic progress.

14 staff members completed the survey this spring. Below are some anecdotal comments from the survey:

What was your biggest challenge: Reestablishing a sense of normalcy after remote learning; Adapting lesson plans to fit the needs of students

What was your biggest success: Students seem genuinely concerned about grades and completing work; Students made progress behaviorally and emotionally.

78.6% of staff continued to use technology on a daily basis in the classroom: Carnegie Math resources, Scholastic resources, Jupiter Grades, google classroom, my online Environmental Science from Holt, and study.com for videos; Access to digital assessment platforms; the google suite including google docs

In what ways did you change to adapt to the needs of this year's student population? Was it different from other years? I used graphic organizers and whole class input to scaffold and teach skills such as taking notes, using evidence, and structuring the writing process. Very much as it's a very different population than I have ever supported before. I adapted to the smaller population, let go of heavier discussion/group based work and went towards student interest.

How can we make the incentive program work better to reinforce positive behaviors in students? make it that the whole community knows the system, That kids are rewarded once a week, make sure all staff is involved in scoring kids, and that forms are filled out for each period; daily recognition like stamping the old ACE cards

The statements above will help to guide next steps programmatically for the Court and Community schools.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are only a few slight changes to the metrics and the goal. The following statement was added to the goal after understanding the needs in our county for special education students who need mental health support: In 2022 - 2023, the continuation of this goal across all programs will continue and, due to the data showing a high need in the county for special education students with high social and emotional needs, SMCOE intends to add a therapeutic program to the Gateway Community School site.

We added a few words to the metrics above to clarify - such as 'semester' instead of 'quarter' and 'incidents'. We also need to delete two metrics that are repetitive. We made a few shifts so as to not duplicate and added a metric around respect. Lastly, our baseline for parent engagement was much lower than previously. This year our parent engagement dropped significantly. We believe it is due to pandemic fatigue and the nature of societal needs based on our population of parents and guardians. This year has been especially difficult with inflation rising, shifting employment, student apathy, etc. and thus parents shared they struggled to engage. We lowered our baseline and need to reconsider rebuilding this parental and guardian network and engagement.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

| Goal # | Description |
|--------|---|
| 3 | Focus Goal 3: Over three years, we will develop a robust career exploration and awareness program which will include exploring the potential of a Career Technical Education pathway involving coordinated career and certification coursework with the community college district, a work-readiness certificate, a strong partnership with workability, industry, and internships and job opportunities in order to support deeper core content learning through real-world application and to support career training and readiness. Pathway and dual enrollment work will be initiated through Project Change and grants will be pursued to assist in funding. |

An explanation of why the LEA has developed this goal.

Data shows that students who have a plan and are engaged in their future planning are more likely to continue and complete academic goals. We have chosen to focus on this as students must be willing to explore and engage in learning that will apply to their future and possibly their career. Due to the high cost of living in the San Francisco Bay Area, teaching students about community college career technical education pathways, as well as industry certifications, can lead students towards less debt and higher wage jobs. Building out all levels of a robust college and career planning model that includes a career technical education will be done over three years. Below data for year 1 is based on the 2020 - 2021 school year, unless otherwise stated.

Priority 5: Pupil Engagement

Priority 7: Course Access

Priority 8: College and Career Indicator

Measuring and Reporting Results

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The only substantive difference of note is that we were not able to begin work on the 'Work Readiness Certificate due to the COVID-19 pandemic, the continuation of a shortage of staff, and all the varying responsibilities to keep schools open. This particular action of the goal fell behind. We will begin the 2022 - 2023 year with this in mind. We must determine what is needed in order to earn the certification and how we might honor this when students meet it. More time will be given toward future collaboration efforts for this metric.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were not material differences. The differences between the budget and the actuals offset each other: 2 teachers left the program, but we incurred a cost of living increase

An explanation of how effective the specific actions were in making progress toward the goal.

By linking instructional engagement to attendance and productivity in the classroom, we hope to increase participation. Career Technical Education, skills curriculum, applied and hands-on and project-based learning are all ways to increase engagement and content knowledge. While the metrics are valuable, we have only begun this work. Due to the COVID-19 pandemic, strategic planning took longer than we expected. We were able to move forward with professional development training in these areas in mid-spring of 2022. That said, as illustrated by the data, in some areas - such as when students report on themselves, the metrics are fairly positive. But we have much work to do this arena. Staff, Site Council, and the WASC visiting committee all believe the next focus for improvement in curriculum and instruction practices needs to be around engagement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The following statement was added to our goal: Pathway and dual enrollment work will be initiated through Project Change and grants will be pursued to assist in funding. We intend to review and apply for funding through the CTE Incentive Grant, through Perkins, and through the K-12 Strong Workforce; in the pursuit of building pathways with our partners in the community college district.

We needed to establish a new baseline for the average daily attendance rate as the 2019 - 2020 year was not an accurate reflection for a baseline.
We also needed to establish a new baseline based on this year in several areas such as Project Change enrollment, workability and the We Can Work grant.
We will delete the College Enrollment metric as all college data will be documented under the Project Change metric.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

| Goal # | Description |
|--------|---|
| 4 | Maintenance Goal 4: Continue to support strong coordinated services for Expelled and Foster Youth in San Mateo County |

An explanation of why the LEA has developed this goal.

Priority 9 and 10 are mandated for County Offices of Education. We continue to forge, build, and maintain critical partnerships and relationship with all entities that serve expelled and foster youth. Our overarching goal is to build understanding and capacity in districts and increase early interventions.

Measuring and Reporting Results

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|---|--|---|----------------|----------------|---|
| Expelled Youth - Data Incomplete Due to Covid-19 Pandemic and Distance Learning | 20 or Fewer Expulsions Countywide | 2020 - 2021 data = 10 Expulsions | | | 15 or Fewer Expulsions Countywide |
| Foster Youth Executive Advisory Committee | 30 Attendees | 2021 - 2022 data = 66 Attendees | | | 40 Attendees |
| Foster Youth Trainings and Symposium Enrollment | Annual Number of Events 2020 - 2021 = 38 Events | 2021 - 2022 data = 45 Events | | | Increase Events by 10% (minimum - 42) |
| Foster Youth Trainings and Symposium Enrollment | Annual Number of Attendees 2020 - 2021 = 616 Attendees | 2021 - 2022 data = Approximately 510 Attendees. | | | Increase the Attendees by 20% (minimum - 739) |

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|--|--|----------------|----------------|----------------|---|

| 4.1 | Foster Youth Liaisons | Foster Liaisons work across multiple layers of agencies to ensure Foster Youth receive appropriate services. | \$346,198.00 | No |

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The COVID-19 pandemic continued to impact many facets of the work for foster youth around the county. In addition, there was staff turnover at both Child and Family Services and at school districts. This resulted in retraining at a foundational level. One difference this year was leaning into the post-high school transitions for these students. More work than ever was done to set up college and career pathways and partnerships for foster youth. Through the utilization of online tools, foster youth were able to work with mentors to reflect on their strengths and set goals for their futures. In terms of the difference between the 2020 - 2021 year (the COVID-19 Pandemic Year) versus the 2021 - 2022 year, there is a slight difference in the amount of attendees at the Foster Youth Trainings and Symposium events. This follows the same trend found earlier when addressing parent engagement. While the 2020 - 2021 year allowed people to engage, often from their homes, the 2021 - 2022 year, became overwhelming in trying to manage schools or manage parenting and manage the COVID-19 pandemic. Across all of SMCOE, we struggled with engagement of parents, staff, community, etc. We will reset and aim for a more typical year in the 2022 - 2023 year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences.

An explanation of how effective the specific actions were in making progress toward the goal.

Other than what was stated above on the need to reteach foundational information to school and district leadership and counselors about foster youth needs, the actions directly support the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

No changes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

| | |
|---|--|
| Projected LCFF Supplemental and/or Concentration Grants | Projected Additional LCFF Concentration Grant (15 percent) |
| \$170,802 | 0 |

Required Percentage to Increase or Improve Services for the LCAP Year

| | | | |
|---|-----------------------------|-------------------------|---|
| Projected Percentage to Increase or Improve Services for the Coming School Year | LCFF Carryover — Percentage | LCFF Carryover — Dollar | Total Percentage to Increase or Improve Services for the Coming School Year |
| 1.76% | 0.00% | \$0.00 | 1.76% |

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Goal 1 Contributing Actions: The following actions were identified to support early identification of educational gaps and increase identification of targeted interventions for English Learners, low income, and foster youth students. Additionally, by incorporating these strategies across all programs, English Learners will increase their content knowledge and communication skills, as shown through frequent formative assessments and reported through the ELPAC (English Language Proficiency Assessment for California).

Action 1.1 Formative and Summative Assessments for Local Measures

With the suspension of the CA Dashboard and with the impact of COVID-19 on learning acquisition and social emotional support, we realized that we needed to implement local formative and summative assessments that quickly identified areas of need for our students. Before the COVID-19 pandemic, we relied solely on state-level assessments. We used this opportunity to research, develop and implement assessments that fit our context. We continue to modify existing assessments and timelines to meet the needs of unduplicated students. We understand that many of our students are at our school site for short periods. We want to quickly determine any educational gaps, tailor instructional support, and provide support for any trauma-induced experiences for our unduplicated students. Additionally, we want to ensure

that any ELs enrolled in our program are provided with timely interventions that will increase their likelihood of reclassification or English language attainment as measured by the ELPAC.

Action 1.3 Administrative Oversight for EL Program

As a result of the need for our teachers to continuously and quickly pivot in and out of distance learning, we quickly learned from various points of feedback that we did not have a consistent level of understanding and utilization of the ELD curriculum. We want our teachers to develop the capacity to support English language development, and we recognize the need to provide professional development to support the use of integrated English language development strategies. The administrative oversight for the EL program will support ongoing training for specific integrated EL strategies and provide consistent coordination and support for training and implementation. With this level of coordination and support, our teachers can increase the likelihood of reclassification or English language attainment as measured by the ELPAC.

Action 1.5 Assistant Principal

With the circumstances and context that COVID-19 created, we realize that we need an administrator to oversee all of the increased support and services to ensure our English Learners, foster youth, and low-income (including homeless students) are provided with the necessary resources for navigating school. We also realized that our students experienced higher levels of trauma and need more significant levels of emotional support. Finally, we recognize that families are also struggling to meet their basic needs, and we want to ensure that we provide wrap-around services for anyone who enters our schools. Because the assistant principal will provide easy access to services for our students and their families, we hope that the capacity of our students to focus on academics and health will increase, thereby decreasing any learning loss experienced as a result of the COVID-19 pandemic.

Action 1.6 County Office support

To work alongside our assistant principal and teachers to ensure the highest quality of resources, we will partner with the San Mateo County Office of Education (SMCOE). We recognize that a level of expertise is housed within SMCOE and can ensure greater access to services for our English learners, foster youth, and low-income students. Our students and their families are particularly vulnerable to the effects that COVID-19 had on learning and economic outcomes. As a result of the collaboration with SMCOE, we hope to increase our students' capacity to focus on academics, their health, and their safety.

Action 1.7 Paraeducator Support

Currently, 50% of our English Learners are increasing by one level on the Summative English Language Proficiency Assessment of California (ELPAC). We want to increase that to 80% by 2023-24. To support this desired outcome, we are using a para educator to provide more individualized support for our English Learners. This support will give our English Learners more opportunities to receive tailored support and build on their accomplishments based on our formative and summative assessments. Whether an EL student enrolls on a short-

term or long-term basis, we want to ensure that they receive multiple opportunities to acquire the English language and increase their score levels on the ELPAC.

Goal 2 Contributing Actions: The following actions support English Learners, low income, and foster youth students that are also identified as emotionally fragile, students with discipline records who have a history of trauma, or a student with other social, emotional, or mental health needs. These actions intend to support the attainment of Goal 2, which provides more intensive support to build emotional resilience and self-efficacy and integrate self-regulation tools so all students can build a successful educational future. In the first year (2021 - 2022), SMCOE developed the systems and processes for the program model, including tools for identification in consultation with Effective School Solutions and partner school districts. In 2022 - 2023, Goal 2 continues across all programs due to data indicating a need for additional services for unduplicated students with high social and emotional needs. Additionally, SMCOE intends to add a therapeutic program to the Gateway Community School site.

Action 2.1 Contract for Wrap-Around Mental Health Services

Based on local surveys, 71% of students reported having access to mental health services was beneficial, and 67.9% said that having mental health services made the school more positive. This data indicates that our unduplicated students are using and benefiting from our mental health services. Additionally, 100% of our staff reported using restorative conversations, meditation, affirmations, and effective statements in the classroom. Finally, we know that our English Learners, low-income, and foster youth students were more susceptible to high levels of trauma during the COVID -19 Pandemic. To ensure continued access to mental health support, we will continue to provide professional development for staff, access to clinicians, and formative and summative assessments to guide interventions.

Action 2.3 Bilingual Family Counselor

Based on local survey results, 25% of our parents completed surveys when requested and 25% attended parent training through SMCOE at least once. We want to increase parent participation in our school because we know that students will be more engaged if parents participate. We also want to ensure that all of our parents feel welcome and have access to our services, and we have parents that do not speak English. Therefore, we will provide a bilingual family counselor as a parent and student liaison. We hope that when families need and have access to a bilingual family counselor, their participation rate will increase while also creating an inclusive culture at our schools.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

By employing a Bilingual Family Counselor to support our unduplicated population of students and by addressing our need to holistically work with our parent and guardian community through engagement, the actions/services to support these students will help with an increase in achievement as shown through formative and summative assessment.

By employing the foster youth liaisons at the San Mateo County Office of Education, all aspects of foster youth needs that address education, housing, and basic needs will improve. This action/service is effective because the foster youth liaisons connect and leverage resources and encourage communication across San Mateo County on behalf of all foster youth.

With support of administration and staff, our unduplicated population including English Learners, foster youth, homeless, expelled and low-income students will continue to be connected to resources, community colleges, and future planning. This work is effective because focusing on transitions allows foster youth to transition in and out of systems as smoothly as possible. This action/service will help students to move through school systems and create and plan for their future careers.

While most action are provided LEA-wide, the goals, actions and expenditures are integrated to address the unduplicated population and to increase or improve services for 1.8%

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Not Applicable

| Staff-to-student ratios by type of school and concentration of unduplicated students | Schools with a student concentration of 55 percent or less | Schools with a student concentration of greater than 55 percent |
|---|--|---|
| Staff-to-student ratio of classified staff providing direct services to students | 0 | 0 |
| Staff-to-student ratio of certificated staff providing direct services to students | 0 | 0 |

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for Year 3 (2023–24) |
|---|---|---|---|---|--|
| Enter information in this box when completing the LCAP for 2021–22 . | Enter information in this box when completing the LCAP for 2021–22 . | Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then. | Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then. | Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then. | Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric. |

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action is included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
 - **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
 - **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
 - **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
 - **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

- Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”
- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
 - 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year’s Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
