OYCR | Office of Youth and Community Restoration

JUVENILE JUSTICE REALIGNMENT BLOCK GRANT ANNUAL PLAN

MAIN CONTACT FOR PLAN

Date: May 1, 2026

County Name: San Bernardino

Contact Name: Deputy Chief Kimberlee Drury

Telephone Number: (909) 387-5580

E-mail Address: Kimberlee.Drury@prob.sbcounty.gov

BACKGROUND AND INSTRUCTIONS:

Welfare and Institutions Code (WIC) Sections 1990 through 1995 establish the Juvenile Justice Realignment Block Grant (JJRBG) program, which supports county-based care, custody, and supervision of youth who were previously eligible for commitment to the Division of Juvenile Justice (DJJ) prior to its closure. Section 1995, which governs the county planning process, was amended by Assembly Bill 118 (Chapter 96, Statutes of 2025). This template reflects those amendments, which take effect January 1, 2026. All statutory references in this document are to the law as amended. The statutory language can be found here.

To be eligible for funding allocations associated with this grant program, counties shall create a subcommittee of the multiagency juvenile justice coordinating council to develop a plan describing the facilities, programs, placements, services, supervision, and reentry strategies that are needed to provide appropriate rehabilitative services for realigned youth. (Welf. & Inst. Code § 1995(a).) OYCR may request revisions as necessary or request completion of the required statutory elements in the plan prior to final acceptance of the plan. (Welf. & Inst. Code § 1995 (f).) Plans and the date of their acceptance will be posted to the Office of Youth and Community Restoration website. (Welf. & Inst. Code § 1995(g).)

There are ten sections to the plan:

Part 1: Subcommittee Composition
Part 2: Target Population
Part 3: Programs and Services
Part 4: Juvenile Justice Realignment Block Grant Funds
Part 5: Facility Plan
Part 6: Retaining the Target Population in the Juvenile Justice System
Part 7: Regional Efforts
Part 8: Data
Part 9: Other Updates
Part 10: Expenditure Summary

PART 1: SUBCOMMITTEE COMPOSITION AND PROCESS (WELF. & INST. CODE §§ 1995 (B) AND (C))

List the subcommittee members, agency affiliation where applicable, and contact information:

Agency	Name and Title	Email	Phone Number
Chief Probation Officer (Chair)	Tracy Reece Chief Probation Officer	Tracy.Reece@prob.sbcounty.gov	(909)387-5693
Co-Chair (*If Applicable*)	N/A	N/A	N/A
District Attorney's Office Representative	Robert Brown Assistant District Attorney	rbrown@sbcda.org	(909)382-7714
Public Defender's Office Representative	Richard Sterling Chief Deputy Public Defender	Richard.Sterling@pd.sbcounty.gov	(760)241-0413
Department of Social Services Representative	Jeany Glasgow Director Children & Family Services	Jeany.Glasgow@hss.sbcounty.gov	(909)658-1181
Department of Mental Health	Gayle Morrow Senior Program Manager Department of Behavioral Health	gmorrow@dbh.sbcounty.gov	(909)387-7750
Office of Education Representative	Donald English Director Superintendent of Schools	Donald.English@sbcss.net	(909)386-2755
Court Representative	Eden Berrospe Deputy Director of Operations	EBerrospe@sb-court.org	(909)269-8928
Three Community Members (*defined as "individuals who have experience providing community-based youth services, youth justice advocates with expertise and knowledge of the juvenile justice system, or have been directly involved*	Tony Cifuentes Highlanders Boxing Club	highlandersboxingclub@live.com	(909)496-0710
	Owen Duckworth Inland Empire Reentry Services	o.duckworth@ierebound.org	(909)747-9212
	Terrance Stone CEO Young Visionaries	tstone@yvyla-ie.org	(909)723-1695

in the juvenile justice system" (Welf. & Inst. Code § 1995(b).))			

Additional Subcommittee Participants			
San Bernardino County Superior Court	Honorable Lynn Poncin	lponcin@sb-court.org	(909)269-8291
San Bernardino County Superior Court	Honorable Steven Mapes	smapes@sb-court.org	(909)269-8291
Community Member	Sandy Bonilla Urban Conservation Corps.	sb@mountainsfoundation.org	(909)963-6645
Department of Behavioral Health	Dr. Timothy E. Hougen Deputy Director Department of Behavioral Health	Thougen@dbh.sbcounty.gov	(909)388-0803
Probation Department	Kimberlee Drury Deputy Chief Probation Officer	Kimberlee.Drury@prob.sbcounty.gov	(909)387-5580
Probation Department	Khara Garnett-Todd Division Director II	Khara.Garnett-Todd@prob.sbcounty.gov	(760)961-6712

Describe the process used to determine whether to select a co-chair for your subcommittee (Welf. & Inst. Code § 1995(b)):

This section is not applicable.

Provide the dates of the last two meetings that the subcommittee convened to discuss your county's JJRBG plan?

Meeting Date 1: October 16, 2025 Meeting Date 2: January 15, 2026

Additional meeting dates of the subcommittee, if applicable:

April 16, 2026

Date that the subcommittee approved the plan by a majority vote:

April 28, 2026

Describe how the plan was developed, including the review and participation of the subcommittee community members as defined in Welf. & Inst. Code § 1995(b):

The plan was developed with the subcommittee, which comprises county and state stakeholder agencies and departments, as well as community members with experience providing services to youth. The subcommittee strategically and collaboratively developed the annual plan, which included programs, services, supervision, and rehabilitation for the SYTF and Re-Entry populations.

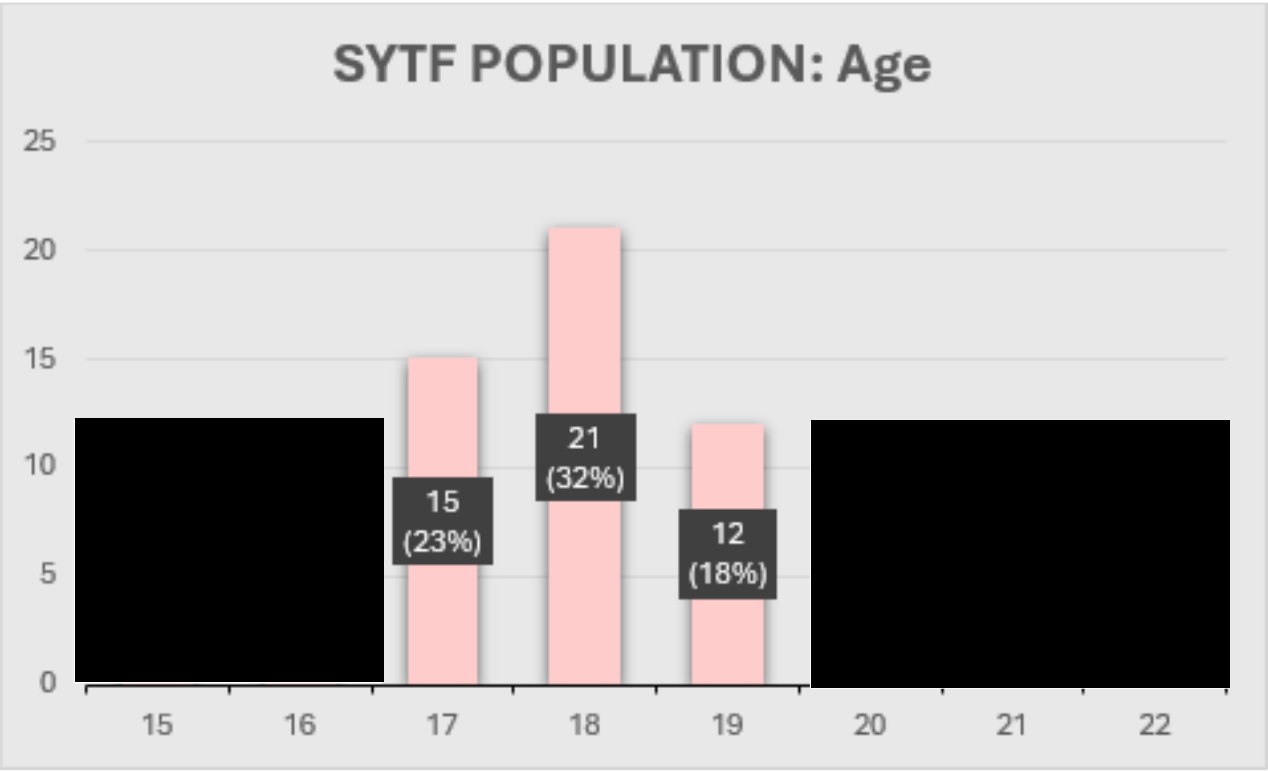
PART 2: TARGET POPULATION (WELF. & INST. CODE § 1995(D)(1))

Briefly describe the County's realignment target population supported by the block grant.

The "target population" is defined as "youth who were eligible for commitment to the Division of Juvenile Justice prior to its closure* and *shall further be defined as persons who are adjudicated to be a ward of the juvenile court based on an offense described in subdivision (b) of Section 707 or an offense described in Section 290.008 of the Penal Code." (*Welf. & Inst. Code § *1990(b))

The target population within San Bernardino County are youth who are between the ages 14 to 25 who are realigned from the Division of Juvenile Justice (DJJ) or who would have otherwise been eligible for commitment to DJJ. The number of youths in the program is anticipated to range from 50 to 75 at any given time, with ages ranging from 14 to 25 years old. All youth in the target population were placed at our local SYTF in accordance with Welfare and Institutions Code (WIC) §1995(d)(1). No other placement facilities were utilized.

Youth supported by SYTF are youth who have been made wards of the court, and their most recent committing offense(s) are found true or admitted as listed in Welfare and Institutions Code (WIC) 707(b). The offenses enumerated under WIC 707 (b) include but are not limited to murder, sodomy by force, rape with force/violence or threat of great bodily injury, kidnapping for ransom, assault with a firearm or destructive device or other serious and violent offenses. The most frequently committed offenses in San Bernardino County in the past have been violent crimes such as murder, attempted murder, armed robbery, and assault with a deadly weapon, although other crimes are also possible and are addressed.



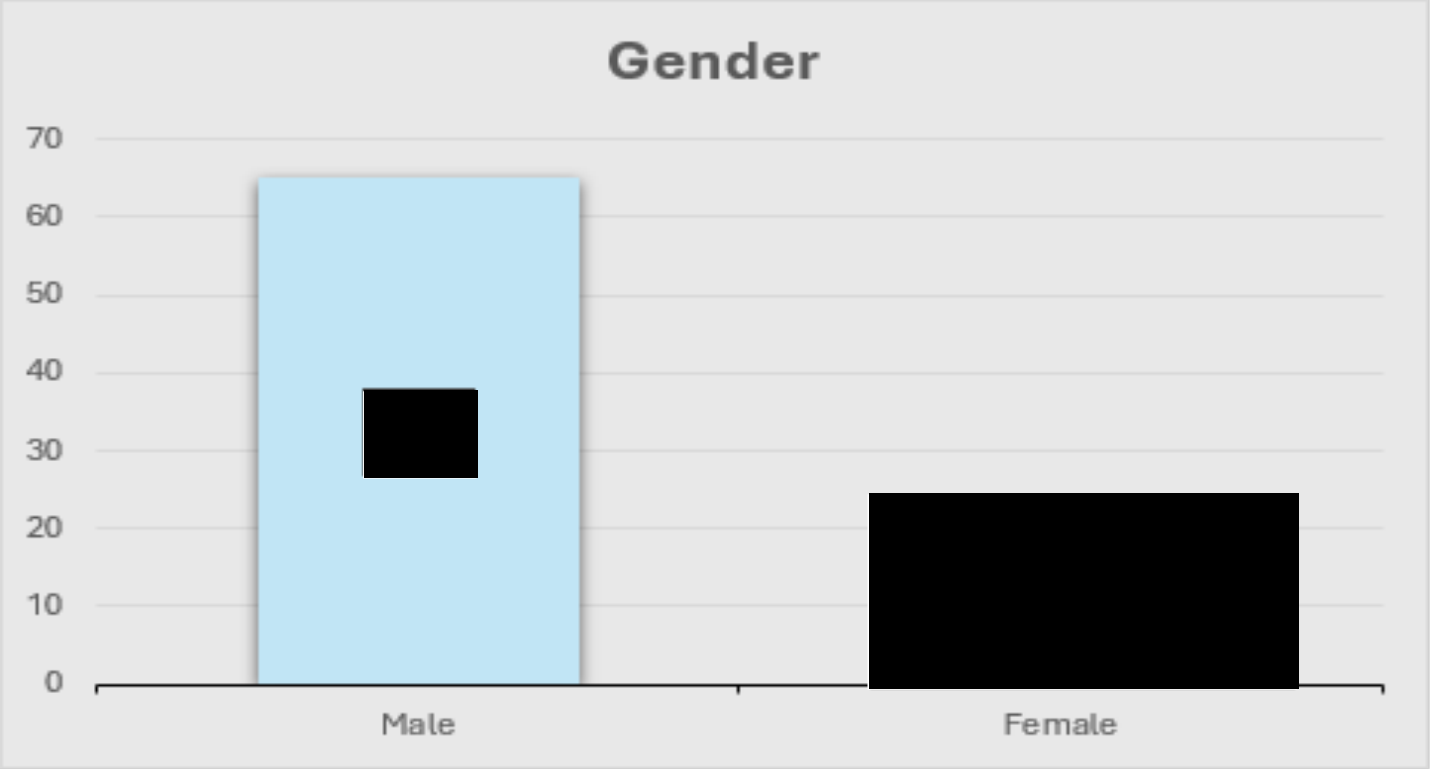
CURRENT POPULATION: 66

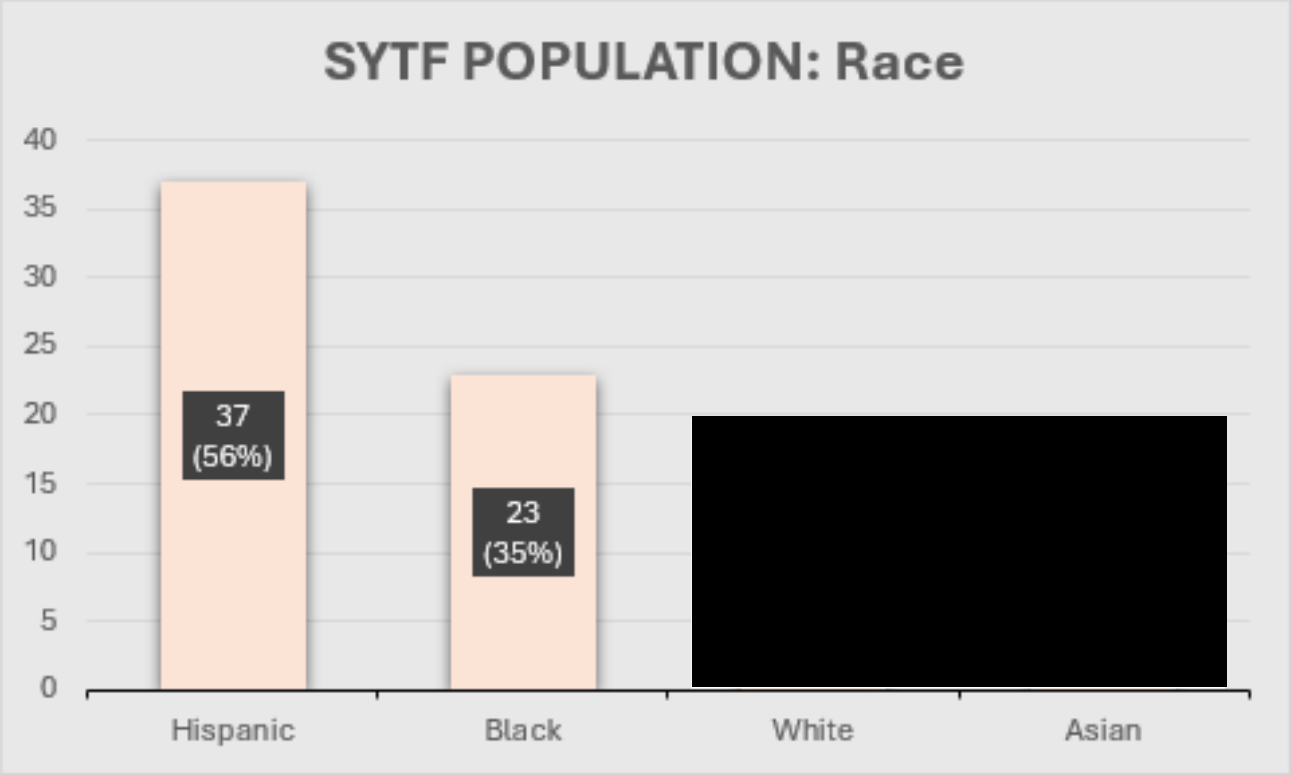
MALE: [redacted]

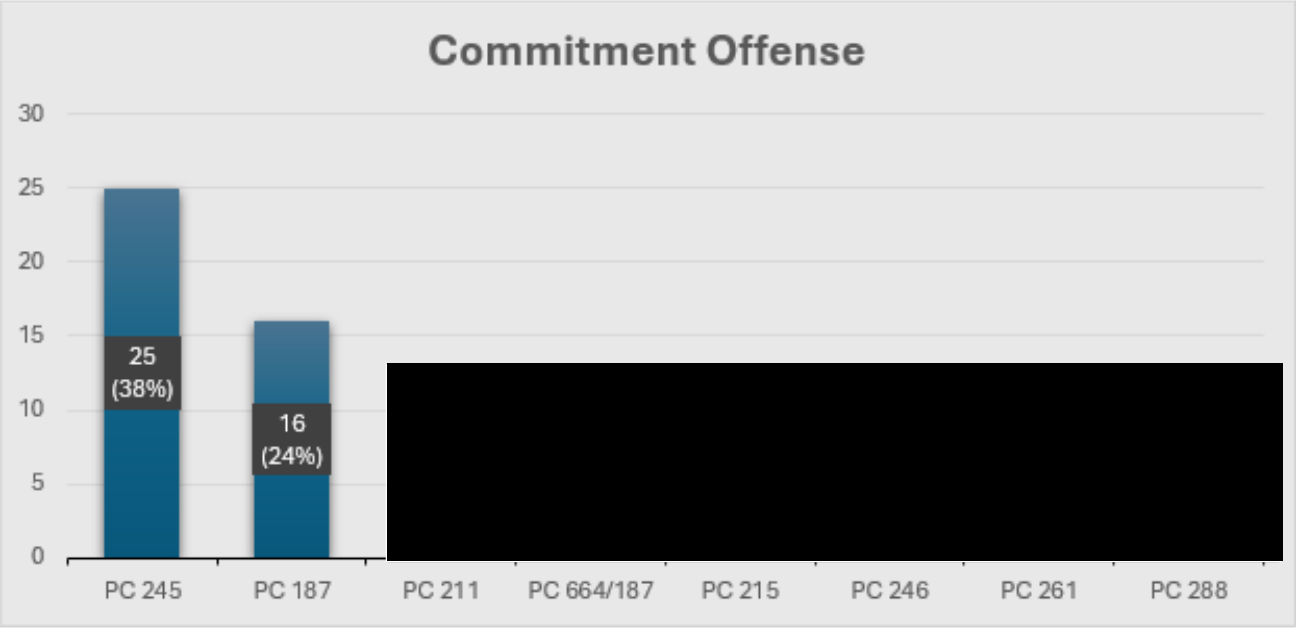
FEMALE: [redacted]

Demographics of identified target population, including anticipated numbers of youth served, disaggregated by factors including age, gender, race or ethnicity, and offense/offense history.

The anticipated number of youths the county will serve in this target population continues to vary as stipulations and changes transpire throughout realignment. The current number of youths the county serves within the identified target population is 66 youths. The average age of youths currently housed at our SYTF is between the ages of 15 and 22, with the highest percentage at 32% for age 21. [redacted] of the population is male, and [redacted] is female. Current breakdown by race is 56% Hispanic, 35% Black, [redacted] Caucasian, and [redacted] Asian. Based upon the current SYTF population the following are commitment offenses: PC 245, Assault 38%, PC 187, Murder [redacted] PC 211, Robbery [redacted] PC 664/187, Attempted Murder [redacted] PC 215, Carjacking [redacted] PC 246, Shooting at Inhabited Dwelling [redacted] PC 261, Forceable Rape [redacted] and PC 288, Lewd or Lascivious Acts [redacted]







Describe the target population disaggregated by programs, placements and/or facilities to which they have been referred.

Prior to a youth being committed to the SYTF, all options are evaluated as part of the Dispositional report prepared by the San Bernardino County Probation Department. If the youth's needs and the community's protection can be met through supervision in the home or a lower level of out-of-home placement, those options are the priority.

PART 3: PROGRAMS AND SERVICES (WELF. & INST. CODE § 1995(D)(2))

Provide a description of the facilities, programs, placements, services and service providers, supervision, and other responses that will be provided to the target population. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(2) and (d)(8)):

The intent of the program remains for community-based organizations and families to work with county personnel to integrate services, both in and out of custody, to provide youth with a comprehensive continuum of care that lowers recidivism rates and prepares them for their transition into the community. The San Bernardino County program continues to incorporate a multi-step-down/phased approach to community reentry. The County of San Bernardino is utilizing two Probation Department facilities for its DJJ realignment/SYTF population and is coordinating with other county departments and community-based organizations to ensure appropriate housing options are available for future phasing in the rehabilitation process. The program includes three specific phases. The initial phase, or phase one, of the program will occur within the Secure Youth Treatment Facility (SYTF) during the youth's initial term of commitment. San Bernardino County's SYTF is located in Apple Valley, California. Phase Two, our Successful Outcome for Achieving Responsibility (SOAR) program, is the Step-down Phase, which begins the incorporation of supervised community interaction to support the youth's transition back into the community. For the second phase of this program, The Probation Department is repurposing an existing building located in the City of San Bernardino, California, as the step-down from the SYTF in the High Desert. The Department is also continuing to expand its use of community-based providers that operate transitional housing programs, sober living environments, and residential treatment programs specifically designed for justice-involved youth. Phase Three is the last phase of the program and removes the direct staff support provided in Phase Two. This phase is the Independent Housing Phase, in which the youth live without daily supervision, using their own developed resources while still benefiting from community supervision and support to promote positive youth development. This may include returning to a family member's home or to other housing options. It is in this phase that the youth achieve independence, having met all the court's requirements. Youth who continue to participate in college programs will work with the college's services to address their educational needs toward their chosen career path and receive job placement assistance. Youth who have gained employment will be encouraged and supported in maintaining their employment and advancing in their chosen career with mentoring and guidance for successful employment. Staff and youth will work together to develop a strategy that leverages the youth's strengths and the resources available in their community to ensure their best chances of success. This phase continues until the youth is discharged from community supervision, and the youth will be provided with support, boundaries, and other services intended to buffer the youth from the risk of recidivism. If the Court finds that the youth are not meeting their rehabilitative goals before reaching their maximum baseline term, they may not be able to participate in this phase and return to the community.

The SYTF for the initial phase is a Secure Youth Treatment Facility utilizing housing units that have a home-like atmosphere with a population of no more than 20 youth in each unit. Each unit has a day room, and one large multi-purpose room, which has been remodeled to provide a more home-like atmosphere while still ensuring the safety and security of the youth and staff.

Rehabilitation continues to begin the moment the youths enter the facility. Within the facility, youth can obtain their high school diploma, college degree, vocational training, and certifications, as well as job training, life skills, individual and family treatment, and medical services. In this facility, the county will partner with community-

based organizations to engage the youth in activities, experiences, and programming using a rehabilitative, therapeutic group treatment approach for effective results. In this facility, the county will incorporate the engagement of community-based organizations and county departments that have experience serving youth in a custodial setting through activities, experiences, and programming that use a rehabilitative and therapeutic milieu treatment approach. Each component will build on positive developmental goals and cognitive-behavioral therapy, empowering youth to make positive, long-lasting changes. Every youth is assigned an Individual Treatment Team consisting of the youth, their assigned Clinical Therapist, Social Worker, Teacher, Probation Officer, Caseload Counselor, family members, and/or other supportive adults. Family engagement throughout the treatment process is an integral part of the program, and families will have the opportunity to be involved in the treatment process, including participation in formulating the youth's Rehabilitation Plan. Community members are also partners and mentors in the treatment process, committed to helping the youth make lifelong changes and enabling them to avoid recidivism by changing criminal, anti-social, and self-destructive behaviors upon release and ensuring they are on a pathway to success. From the start, the emphasis will be on preparing the youth for eventual community reintegration and continuing to work with them as partners prior to and after their release.

PHASE I-SYTF

Assessments, Classification, Treatment Planning and Housing:

- Prior to and upon entry, each youth goes through a thorough and rigorous needs and strengths assessment phase using evidence-based tools such as the Child and Adolescent Needs and Strengths assessment (CANS), and the Massachusetts Assessment and Screening Instrument, Version 2 (MAYSI-2). The CANS tool is a multi-purpose tool that supports decision-making, including level of care determinations and service planning, thus allowing for the monitoring and coordination of services. The CANS assessment helps guide conversations among Treatment Team members about the wellbeing of the youth, identifies their strengths and needs, informs and supports care coordination, aids in treatment planning activities, and informs decisions about placement. The MAYSI-2 is a screening tool that helps probation staff and behavioral health staff quickly identify whether a youth may be experiencing issues such as emotional distress, anger, substance use concerns, traumatic experiences, or thoughts of self-harm that may require follow-up. These and other assessments identify the youth's needs and strengths, risk factors including, but not limited to, identification of substance abuse history, education, vocation, counseling, behavioral health, and consideration of known history of trauma, and family strengths and needs.

- Each youth goes through a comprehensive process of classification and assessment that assists with placing the youth in the most appropriate housing placement within their living unit.

- A comprehensive assessment ensures the identification of any psychological and mental health issues, physical health problems, and substance abuse dependencies.

- A review is done of each youth's previous and current program and placement history to aid in determining and identifying which steps and programs need to take place to assist the youth in their preparation for a successful release.

- Clinical Therapists use information obtained from the CANS and other assessments to determine the most appropriate form of family therapy given the youth's and family's strengths and needs. The goal for any family therapy model chosen is to improve family communication, strengthen caregiver support and supervision, reduce conflict, address behavioral and substance use concerns, and prepare the youth and family for the youth's eventual transition back to the community.

- A Treatment Team is established for each youth consisting of the youth, their assigned Clinical Therapist, Social Worker, Teacher, Probation Officer, Caseload Counselor, family members, and/or other identified supportive adult. The Treatment Team is a collaborative multidisciplinary effort that provides support to youth during their rehabilitation process. The Caseload Counselor meets with the youth on a weekly basis to review the youth's progress toward meeting their goals. As needed, the team will adjust the youth's Rehabilitation Plan to support the youth as they work toward their goals. The Treatment Team tracks the youth's progress and reviews it regularly.

Youth Programming & Services:

- Included in the program planning are periodic reassessments during the youth's commitment to the program, which identify successes and any needed modifications to the plan.

- Services and programs that encourage peer support, mentoring, and basic living skills programs are taught and demonstrated to improve the youth's decision-making, outlook, motivation, and ability to live independently. In an effort to improve income potential, youth will be able to obtain the California Food Handler's Card to prepare them to work in the food service environment. Youth are also offered tattoo removal services to improve their chances of obtaining employment. Also offered is a Driving Simulator program, which incorporates Pay It Forward/MADD/CHP curriculum to teach the importance of safety and responsibility while giving the youth the opportunity to practice driving techniques. We are also soon offering a Certified DMV driving school, which will support youth in obtaining their driver's permit by providing DMV-certified Driver's Education courses.

- A graduated leveling system is incorporated into the program to incentivize youth with the opportunity to earn extra privileges in areas that include but are not limited to personal property, expanded visitation opportunities, snacks (canteen), and eligibility for incentive (preferred) jobs in the facility. Youth can progress through the leveling system by complying with facility rules and regulations, completing components of their Rehabilitation Plan, participating in various programs, and practicing pro-social behavior. Once earned, privileges may be lost for non-compliance, as a youth's behavior determines which incentive levels, they can earn while in the program.

- Community Service: Youth have an opportunity to participate in assisting their community by being involved in projects within the facility that help others in the community. Currently, youths are working with Victor Valley College (VVC) to build sheds that may be used by Probation to store tools for multiple vocational courses. The youth have also built dog houses and little mobile libraries for county agencies that serve children and participated in creating and developing storefront displays for the Sheikh Wonderland Community event in December 2025, providing an opportunity to contribute to a community-focused project and showcase their creativity.

- Spiritual Health: Youth are provided the opportunity to participate in non-denominational faith-based services and practices, and or faith-based counseling at least once each week if interested.

- The program also ensures that youths released from the initial phase of the program have appropriate forms of identification and are assisted in applying for services and assistance in their community for which they are potentially eligible.

Continuum of Mental Health Services:

- Mental health services provided by qualified Clinicians.
- A continuum of mental health services is available to youth while placed in the SYTF. This means youth are not limited to one type of service or a single point of contact. Instead, services are provided across different levels of need, ranging from routine support to early identification to more intensive intervention when a youth is experiencing distress, behavioral concerns, or safety risks.
- Mental Health services are designed to support the youth's safety, stability, rehabilitation, treatment progress, and successful transition back to the community. Clinical services may include screening, assessment, individual therapy, family therapy, group services, crisis response, case planning, reentry coordination, and consultation with facility partners.
- Each youth has access to psychiatric services when psychotropic medication evaluation or medication management is clinically indicated. Psychiatric services include assessment of the youth's behavioral needs, review of current or prior medications, prescribing or adjusting medication when appropriate, monitoring effectiveness and side effects, supporting medication education and coordinating with behavioral staff, medical staff, probation, caregivers and community providers to promote continuity of care during placement and upon transition back to the community.
- Mental Health Clinicians play an integral role in the treatment aspect of the youth's program throughout the youth's commitment to the program. Licensed and Pre-Licensed Clinicians provide Treatment Planning, Individual Therapy, Family Therapy, Group Therapy, Substance Abuse Groups, Systemic Family Therapy and the CANS Assessment, Wellness Components, Art Therapy, Trauma-Focused Cognitive Behavioral Therapy (CBT), Reintegration, and Moral Recognition Therapy (MRT).
- All youths are assessed for substance abuse issues and are placed in the appropriate program to assist the youth with overcoming their identified issues. Programs such as Matrix and Seeking Safety are prioritized for drug-dependent youths, and those approaching release or discharge, as well as ensuring engagement of community-based mental health care systems are in place to provide post-release services to youths with mental health needs.

Treatment Components may include:

- Forward Thinking Journal Series: This cognitive-behavioral series uses evidence-based strategies to assist youth involved in the criminal justice system in making positive changes to their thoughts, feelings, and behaviors. It utilizes an interactive journal method.
- Communication Skills Group
- Anger Management, Conflict Resolution, and Crisis De-escalation
- Trauma-informed Yoga
- Horticulture therapy
- Drumming your feelings
- Gang Prevention
- Parenting classes
- Drug and Alcohol Prevention
- Sports and Mindfulness
- Victim Awareness
- Restorative Justice
- Sexual Offender Treatment
- Peer Mentoring
- Indigenous Cultural Enrichment

Educational Programs:

Providing youth with opportunities to learn basic life skills and educational and vocational competencies aligned with employment market demand and public safety requirements is essential to success post-release.

- Secondary Education - High School Diploma
- Post-Secondary Education – College coursework. Youth will have the opportunity to take college courses that can lead to an associate and bachelor's degrees. Currently contracting with Victor Valley College, LA Mission College, and California State University San Bernardino for post-secondary education. Opportunities are available for youth to transition into California State Universities after completing coursework at the community college level. In addition, provisions are being made to allow youths to continue attending California State University at community college rates upon re-entry.
- Career Technical Education (CTE) programs combine academics with employer-required hands-on experience and occupational knowledge to provide a pathway to careers or further study. Our program will offer an abundance of certificates and Associate degree programs that can lead to careers. Youth can prepare for a job and complete post-secondary education.
- Vocational Education – Training for a specific vocation in industry, agriculture, or trade. Youth will be given the opportunity to take courses that will prepare students for a specified career. To date, youths have completed Business Courses with the community-based organization Searchlight and Empowering Success, as well as Forklift certification through Young Visionaries and construction through Victor Valley College. Other vocational programs in place include:

Vocational programs:

- Computer Coding
- Computer Graphics and Web Design
- Microsoft Certifications (Word, Excel, Access)
- Creative Arts Theatre
- Small Business Academy
- Music Production
- Film Production
- Introduction to Podcasting
- Introduction to Drumming
- Poetry
- Introduction to Barbering
- Creative Writing and Story Telling
- Food Handler's Card
- Horticulture Therapy
- Agricultural Field
- Office Assistant (Mental Health Setting)
- Acting and Improv
- OSHA and Forklift
- Entrepreneurship

Family Engagement:

Family and other social support systems are crucial to ensuring the youth's success upon reintegration into their communities.

- Visiting

- Treatment Team
- Family Therapy

In an effort to assist with family engagement, transportation is provided when needed to remove obstacles that may prevent family visits and family therapy.

Continuum of Health Care Services:

- Healthcare services are provided by qualified providers.
- San Bernardino County Probation Health Care Services is accredited by the National Commission on Correctional Health Care (NCCHC). We continue to be the only Juvenile Facility in the state of California to hold this accreditation.
- On-site dental services are provided by a dentist licensed within the state of California.
- Optometry services are provided on-site.
- Clinician treatments are based on evidence-based guidelines and are implemented in a timely manner. Health treatment plans are modified as clinically indicated.
- Health education and instruction in self-care for their condition are offered and provided. General health education classes, as well as pamphlets and brochures on a variety of health topics, are available and accessible to youth. Educational programs are age-appropriate, and first-aid and CPR certifications are also offered to youth.

PHASE II-STEP DOWN/LRP

Qualified youth who have completed significant aspects of their Individual Rehabilitation Plan may be eligible for recommendation to the stepdown program. The Treatment Team will evaluate and provide input for the less restrictive program. Youth will continue to receive the programming and services they previously received in Phase I, with additional treatment and support services. Youth will also be provided with additional opportunities to meet established goals, focusing on future needs such as higher education, employment, housing, and family reunification to prepare for transition into the community.

In this phase, the youth still have access to many of the programs and services as in Phase I, with the addition of plans focusing on future needs such as housing, employment, family reunification, and continued treatment for addiction and mental health. The Department is continuing to expand its use of community-based providers that operate transitional housing programs, sober living environments, and residential treatment programs specifically designed for justice-involved youth. These programs deliver evidence-based, trauma-informed services for both youth and their families, with a focus on continuing to promote prosocial behaviors, emotional well-being, and the development of life skills while in the community. These community-based services serve as a less restrictive option that allows youth to remain safely in the community, access structured treatment and supervision in a developmentally-appropriate environment and maintain connections to family and natural support systems. This is offered to the youth prior to a youth's baseline and when clinically and behaviorally appropriate.

Reentry Preparation:

- Ensure the youth is ready to return to the uncertain environment of community interaction and provide programming developed in conjunction with community-based organizations, mentors, and family members to support a realistic and public safety conscious plan of supervision.

- The youth’s potential living possibilities will be evaluated to provide the best possible success.

- Job readiness and preparation, interview techniques, dressing for success, and resume writing will all be available for each youth who has not already completed these training courses.

- Youth have an opportunity to earn the privilege of home furloughs in differing increments. Home furloughs give the youth an opportunity to spend time with family members and practice what they have been learning and developing through their treatment process.

- Ensure that the youth's health care is documented and delivered in such a way that recommended care and support can be continued in the community upon release.

- Ensure youths understand their individual health care needs sufficiently to know where to go for help and what to ask when they become responsible for guiding their own care.

- Identify or establish community service, transitional employment, apprenticeships, internships, and other opportunities for youths to acquire work experience and skills as they seek and maintain permanent employment.

- Provide youths with the opportunities to participate in work assignments and skill-building programs that enhance their employability and success in the community.

- Work programs that involve non-profit, volunteer, and community service organizations, where possible, to permit youths to gain work experience.

Supervision Services and Opportunities:

- Youth attending college have the opportunity to start attending on campus. They will continue to work with the college's services for educational needs towards their chosen career path. Youth will be connected to programs such as Rising Scholars that aim to provide incarcerated and formerly incarcerated individuals with access to higher education and opportunities for personal and academic growth. These programs are offered through Community Colleges and provide additional support and guidance.

- Youth who have gained full or part-time employment are encouraged and supported in maintaining their employment and advancing in their career.

- Mentorship opportunities using community-based and faith-based organizations can assist the youth at this time in a community setting to provide additional support structures and pro-social activities.

- Additionally, contact with local unions, including the Ironworkers Local (for metalwork), the Carriers & Laborers Local (for building construction), the Teamsters Local (for shipping and logistics), and the Boilermakers Local (for industrial construction), assists in ensuring that safe, stable, high-quality employment opportunities are available to the youth.

Transitional Housing:

- After completion of the Step-down Phase, youth needing extra support built into their program will be given an opportunity to be involved in Community Housing. This will be a step chosen by the youth and their Treatment Team. Agreements with community-based organizations enable youth to be placed in local housing, affording them full community access while maintaining strong support services and mentoring. This helps to provide them with continued structure, support, and supervision that they will not have to the same degree once out on their own in Phase III. Youth continue to have access to a continuum of community-based mental health, medical, and other services; mentoring; job placement; life skills training; housing; transportation; and other services.

PHASE III – INDEPENDENT LIVING IN THE COMMUNITY

Phase III involves discharge to community supervision. This phase begins when the youth is released to a family, a friend, or independent housing and continues until the youth is discharged from community supervision. During this phase, the youth, the Probation Department, community-based organizations, county and state human service agency providers, and the youth's own personal support network collaborate to optimize the youth's successful adjustment.

Supervision Services and Opportunities:

- Youth in this phase who are continuing to participate in college programs will work with the college's services to continue their educational needs towards their chosen career path.
- Youth who have gained full or part-time employment are encouraged and supported in maintaining their employment and advancing in their career.
- Review and prioritize terms and conditions of release and develop a supervision strategy that corresponds to the risk and needs of the individual youth and the resources available in the community.

Engage community members, including community-based organizations, the faith-based community, the business community, and contracted youth success partners, to work collaboratively with Probation staff to meet with youth prior to their release and facilitate planning and support for the youth's success in the community.

Since May 1, 2025, the San Bernardino County Probation Department has increased programming within the Secure Youth Treatment Facility (SYTF) during the youth's initial term of commitment. The Department is continuing to expand its use of community-based providers that operate transitional housing programs, sober living environments, and residential treatment programs specifically designed for justice-involved youth. Phase II youth who have completed significant aspects of their Individual Rehabilitation Plan and are eligible for recommendation continue to be referred to appropriate, less restrictive programs. Our Department Stepdown program continues to be under renovation.

PART 4: JUVENILE JUSTICE REALIGNMENT BLOCK GRANT FUNDS (WELF. & INST. CODE § 1995(D)(3))

Describe how the County plans to apply grant funds to address the mental health, sex offender treatment, or related behavioral or trauma-based needs of the target population. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(2) and (d)(8)):

Grant funds will be applied to Mental Health staff completing specialized training courses and certifications in order to provide the following Mental Health services to meet the needs of the target population:

The county intends to work collaboratively with community-based organizations and the Department of Behavioral Health to provide coordinated mental health care. Services include, but are not limited to:

- Individual, family, and group counseling

- Case management
- Medication management
- Peer Mentoring
- Crisis intervention
- Job counseling
- Resource Centers
- Community Reintegration Services
- Wrap-around services
- Family Therapy (e.g., Systemic, Functional, Structural)
- Trauma-Focused Cognitive Behavioral Therapy (TF-CBT)
- Cognitive Behavioral Therapy for Sex Offender Youth
- If a need is identified by the Treatment Team that is not already provided within our current services, we will work with county agencies as well as community-based organizations to obtain the services needed.

It is the intent of the San Bernardino County Probation Department to enter into agreements with other Probation Departments for services for serious sex offenders who have serious, significant mental health issues that would impact their ability to participate in the program as designed. We have gender specific programming and are also actively pursuing LGBTQ programming.

Since May 1, 2025, grant funds have continued to be used to support Mental Health staff completing specialized training and certifications to provide Mental Health services that meet the needs of the target population. The county continues to work collaboratively with community-based organizations and the Department of Behavioral Health to provide coordinated mental health care. We have increased our Mental Health services and staff. We continue to have office space at our SYTF, specifically to accommodate our growing Mental Health staff.

Describe how the County plans to apply grant funds to address support programs or services that promote healthy adolescent development for the target population. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(2) and (d)(8)):

Many programs and services for the target population aim to promote healthy adolescent development and overall wellness of the whole being.

Some of the ways that we will be using this to promote healthy adolescent development are as follows:

- Youth will have opportunities to have positive connections with supportive people. The youth in the program will be surrounded by adults who encourage their growth, such as family members, Teachers, Therapists, Caseload Counselors, program leaders, and mentors.

- Safe and secure places to live, learn, and play. Youth will be provided with a safe and secure environment in their housing, treatment, schooling, and recreational areas.

- Access to high-quality, teen-friendly healthcare.

- Youth will be given opportunities to engage as learners, leaders, team members, and workers in various aspects of their program. This includes activities on the housing unit, at school, and during recreation or group activities.

- Group and individual training and support in education, career planning, self-care, interpersonal relationships, goal setting, money management, employment, health care, self-esteem, and decision making that aim to develop essential life skills.

Since May 1, 2025, the programs and services provided to the target population have continued to aim to promote healthy adolescent development and the overall wellness of the whole being. We have continued to provide opportunities for positive connections with supportive people who encourage youth in their growth and progress.

Describe how the County plans to apply grant funds to address family engagement in programs for the target population. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(2) and (d)(8)):

San Bernardino County Probation Department plans to utilize the clinical model of Systemic Family Therapy (SFT) to address family engagement. These services are provided by the Department of Behavioral Health. Staff are trained in the use of this modality, which has five major components: engagement, motivation, relational assessment, behavior change, and generalization. Each component has its own goals, focus, intervention strategies, and techniques. There is also a focus on parenting and family reintegration. In addition, staff are also trained in various types of treatment services, including trauma-informed care.

- Systemic Family Therapy
- Visiting
- Support Groups
- Parent Partners
- Family Liaison
- Treatment Teams
- Transportation (via gas cards, bus passes, etc.)

Since May 1, 2025, the San Bernardino County Probation Department has continued to promote family engagement and focus on family reintegration. Youth who have children are encouraged to participate in the Nurturing Fathers component and visits with their children.

Describe how the County plans to apply grant funds to address reentry, including planning and linkages to support employment, housing, and continuing education for the target population. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(2) and (d)(8)):

Reentry, including planning and linkages to support employment and continuing education for the target population, the County of San Bernardino will be applying funds towards areas such as the following:

- Developing skills for interviewing, resumes, professional dress, and how to fill out applications/search for employment.

- Certificates such as CPR, Forklift driving, Food handler's permits, OSHA permits, Drivers permits, and others.

- Vocational Training in areas such as Construction, Cosmetology, Landscaping, Computer Coding, Electrical, Welding, Plumbing, Music, and Graphic Design.
- Clothing for the youth for work, interviews, etc.
- Computers and related technology needed to assist youth in continuing education.
- Aftercare services to follow up with resource connectedness and assistance with independent living.

Since May 1, 2025, the San Bernardino County Probation Department has continued re-entry planning and linkages to support employment, housing, and continuing education for youth. Upon re-entry, youth are provided resources to support continued education, such as continued enrollment in secondary education. Youth are also provided with resources to obtain their state identification/driver's license and permits and are provided with contact with workforce development. Youth are also provided with resources for housing, if needed, as San Bernardino County continues to have a housing contract with our community-based partners to provide housing for youth.

Describe how the County plans to apply grant funds to address evidence-based, promising, trauma-informed and culturally responsive programs or services for the target population. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(2) and (d)(8)):

The County of San Bernardino uses Requests for Information (RFIs) and Request for Proposals (RFPs) to assist in contracting with community-based organizations to provide services, such as but not limited to:

- Employment Supports
- Daily Living Assistance
- Consistent Mentors
- Peer Support
- Educational Supports
- Housing Supports
- Personal Skill Development
- Substance Abuse Counseling
- Pro-Social Activities
- Vocational Training

These services, along with services provided by the Probation Department and the Department of Behavioral Health, will be evidence-based, promising, trauma-informed, and culturally responsive services.

Since May 1, 2025, the San Bernardino County Probation Department has continued to utilize Requests for Information (RFIs) and Request for Proposals (RFPs) to assist in contracting with community-based organizations.

Describe whether and how the County plans to apply grant funds to include services or programs for the target population that are provided by non-governmental or community-based providers. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(2) and (d)(8)):

Community-based providers provide the youth with effective programming while establishing connections from within the communities that they come from. Contracting services allow the youth to develop relationships/resources that, upon release, can assist them with a successful transition. Also, utilizing

community-based providers allows, in some cases, youth to connect with former system-involved individuals who have been successful in their own reintegration.

The department acts as a liaison, monitoring existing programs and services by regularly reporting program outcomes and restructuring as needed. The county works with community partners to build a continuum of community-based approaches, including but not limited to:

- Volunteers
- Mentors
- Community-based organizations
- Faith-based organizations
- Civic organizations
- Local businesses

Currently, we have an eligible list of providers that vary in programming criteria. The county also uses Requests for Information (RFIs) and Request for Proposals (RFPs) to assist in contracting with community-based organizations to provide services. Although the list of programming will change based on availability, programming may include, but is not limited to:

- Work Force Programming
- Employment Assistance & Supports
- Education in Job Skills and Services
- Daily Living Assistance
- Adult Learning Opportunities and Continued Education
- Addiction Counseling and Support Groups
- Family Advocacy Programs
- Healthcare Services
- Community Outreach Programs
- Faith-based Services
- Education in Relationship Building
- Domestic Violence / Counseling
- Re-entry Programs and Services
- Victim Services
- Substance Abuse Counseling
- Gang Intervention
- Sex Offender Counseling
- Mentoring
- Indigenous Cultural Enrichment
- Physical Wellness
- Job Training and Certification Courses/College certifications and degrees

Since May 1, 2025, the San Bernardino County Probation Department has continued to utilize Requests for Information (RFIs) and Request for Proposals (RFPs) to assist in contracting with community-based organizations to provide services.

PART 5: FACILITY PLAN (WELF & INST. CODE § 1995(D)(4))

Provide a detailed facility plan indicating which facilities the county will use to house or confine realigned youth at varying levels of offense severity and treatment need. Include the following (Welf. & Inst. Code §1995(d)(4)):

- **Any less restrictive programs the county uses, and whether those programs are in facilities regulated by Subchapter 5 (commencing with Section 1300) of Chapter 1 of Division 1 of Title 15 of the California Code of Regulations**
- **Any county juvenile facility improvements made to support long-term commitments**
- **How the county will ensure youth safety and protection, including for youth of different ages, genders, special needs, and other relevant characteristics**

Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(8)):

The High Desert Juvenile Detention and Assessment Center (HDJDAC) is the facility in which the ARISE SYTF program is located during Phase One of a youth's commitment time. The HDJDAC is a secure facility. The facility has five (5) main buildings, three (3) of which are housing buildings, and the other buildings are the HDJDAC facility, Administration building, warehouse, additional classrooms, and offices. The housing building also has supervisors' offices and classrooms. Outdoor recreational spaces are located off each housing unit. An exercise room is located on-site. A visiting area for families and a library/ counseling space for individual, family, and group counseling are also located within the facility. Cameras are located throughout the facility to add additional security. The facility is Americans with Disabilities Act (ADA) compliant. The building is up to date on all local and state safety required inspections. The facility has been built to avoid surfaces, edges, fixtures, or fittings that can be used for an act of suicide or self-inflicted injury by a youth. Room doors have large windows to maximize staff supervision and the security of the youth. A detailed classification is completed on each youth, which is used to assign rooms on the housing unit. This classification involves the youth's history, age, size, sophistication, and special needs.

Phase One facility improvements have been completed to ensure a more home-like environment, including:

- New flooring
- New furniture
- New paint
- Updated exercise room
- Additional College Classroom: Desks, computers, printers, etc.
- Vocational Classroom with necessary equipment
- Options regarding clothing
- Options regarding mattresses and other room décor (including handmade blanket)
- Capital Improvement Plan (CIP) to upgrade showers so that the youth have the ability to control the water and larger shower heads.
- Home-like bedding and towels

Since May 1, 2025, Phase One facility improvements have remained an ongoing project. Also ongoing is the replacement of the current landscaped area with turf and the addition of a running track for youth to utilize. A Capital Improvement Plan has also been submitted to upgrade the field for the construction of a vocational building.

Dedicated Office Space for Department of Behavioral Health (DBH)

New High School Classroom Furniture

The Probation Youth Reintegration Services building is the facility in which Phase II of the program will be located. The youth will transfer to the Successful Outcome Achieving Responsibility (SOAR), Step Down program located in San Bernardino, California. This facility is currently under renovation. The facility is where transitional services have been provided in the past to prepare youth for re-entry into the community. This facility has two housing units, a classroom, a component room, cafeteria areas, outdoor recreational courts/field, an exercise room, a vocational training building (referred to as the Regional Occupational Program), and an administrative area with conference rooms for family and individual therapy. Cameras are located throughout the facility to add additional security. The facility is ADA-compliant. The building is up to date on all local and state safety required inspections. The facility has been built to avoid surfaces, edges, fixtures, or fittings that can be used for an act of suicide or self-inflicted injury by a youth. Room doors have large windows to maximize staff supervision and security for the youth. This facility is able to further extend the home-like atmosphere provided to the youth. Each youth undergoes a comprehensive classification process. The housing units are designed to accommodate youth of similar age and sophistication. As the county program evolves, it will remain current with all local and state safety-required inspections. The facility has been built to avoid surfaces, edges, fixtures, or fittings that can be used for an act of suicide or self-inflicted injury by a youth. Room doors have large windows to maximize staff supervision and security for the youth. This facility is able to further extend the home-like atmosphere provided to the youth. Each youth will undergo a comprehensive classification process. The housing units are designed to accommodate youth of similar age and sophistication. As the county program continues to expand and approaches the use of this phase of treatment, there are a few focused areas for improvement, as shown below.

Phase II facility improvements include:

- New flooring
- New furniture
- New paint
- Multiple Vocational Classrooms with necessary equipment
- Multiple options regarding clothing
- Home-like bedding and towels

Since May 1, 2025, the step-down facility has remained under renovation.

SOAR LRP Common/Day Room

SOAR LRP/Youth Room

SOAR LRP Kitchenette/Laundry Room

PART 6: RETAINING THE TARGET POPULATION IN THE JUVENILE JUSTICE SYSTEM (WELF & INST. CODE § 1995(D)(5))

Describe how the plan will incentivize or facilitate the retention of the target population within the jurisdiction and rehabilitative foundation of the juvenile justice system, in lieu of transfer to the adult criminal justice system. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(8)):

In San Bernardino County, our goal remains to reduce the risk factors a youth faces and build and strengthen protective factors and well-being. The greater the risk factors youth face in their lives, the greater the likelihood that they will become offenders, not only as adolescents but also in adulthood. However, building essential assets and foundations in youths' lives can incentivize them towards success. The Individual Rehabilitation Plan

each youth receives will build several important assets the youth need to succeed. Some internal assets include a commitment to learning, positive values, social competencies, and a positive identity. External assets will include support, empowerment, boundaries & expectations, and the constructive use of their time. These assets will be learned and built through family engagement opportunities, therapy sessions, treatment components, mentoring, interaction with supportive community, adult role models, expanded educational opportunities, job learning & skill building, creative activities, achievement motivation, and planning and decision-making. All of those together help the youth to build a positive view of their personal future.

Since May 1, 2025, the San Bernardino County Probation Department's goal has remained to reduce the risk factors for a youth and build and strengthen their well-being. The Individual Rehabilitation Plan each youth receives will continue to build several important assets that youth need to succeed, and youth are re-evaluated every six months to ensure they continue to progress toward success.

PART 7: REGIONAL EFFORT (WELF & INST. CODE § 1995(D)(6))

Describe any regional agreements or arrangements supported by the County's block grant allocation. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(8)):

The San Bernardino County Probation Department has a Memorandum of Understanding with Riverside County with the intent to potentially provide assistance to the neighboring county should our program provide services that Riverside is prepared to render. In addition, we have an agreement with an outside entity that provides therapeutic services to serious sex offender youth who have significant mental health issues that would impact their ability to participate in the program as designed. Building relationships with other counties and stakeholders creates the opportunity to provide additional resources for ARISE youths.

Since May 1, 2025, San Bernardino County Probation Department continues to have a Memorandum of Understanding with Riverside County Probation Department and continues to have an agreement with an outside entity that provides therapeutic services to serious sex offender youth who have significant mental health issues that would impact their ability to participate in the program as designed.

PART 8: DATA (WELF & INST. CODE § 1995(D)(7))

Describe how data will be collected on youth served by the block grant. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(8)):

San Bernardino County will be using evidence-based assessments Child and Adolescent Needs and Strengths (CANS) and Massachusetts Youth Assessment and Screening Instrument (MAYSI). Also, many of our evidence-based programs, such as Anger Regression Training, Moral Recognition Therapy, Forward Thinking, and Courage to Change, all have within their program established pre- and post-tests to measure change in participants' thinking. Data from these resources will be collected to assist in formulating the youth's Rehabilitation Plan, as well as in making changes and updates to the plan throughout the youth's treatment.

Performance outcome measures are centered on public health and public safety approaches to programming and treatment that are evidence-based and promising practices. Evidence supports the belief that programming for positive youth development and stronger community connections will reduce future crime (lower recidivism). Additional measurements over time will demonstrate improved outcomes for youth success, greater public safety, and reduced transfers of youth into the adult criminal justice system. Longitudinal outcomes will examine how programming effectively utilizes community-based responses and interventions. Reviewing and discussing outcomes will result in the least restrictive dispositions appropriate to the environment, reduce racial and ethnic disparities and encourage alternative responses to confinement. Tracking outcomes regarding behavioral incidents, progression in pro-social behavior, successful community reentry at multiple time intervals, and recidivism among youth measures the program's effectiveness. The San Bernardino County Probation Department also has a Research Unit dedicated to increasing and refining data collection, which will remain a priority.

Since May 1, 2025, San Bernardino Probation Department has continued to utilize the resources stated above for data collection. Data collection continues to remain a priority.

Describe outcome measures that will be utilized to measure or determine the results of programs and interventions supported by block grant funds. Describe any progress made on this element since the previous annual plan submission (Welf. & Inst. Code §1995(d)(8)):

Performance outcome measures are centered on public health and public safety approaches to programming and treatment that are evidence-based and promising practices. Evidence supports the belief that programming for positive youth development and stronger community connections will reduce future crime (lower recidivism). Additional measurements over time will demonstrate improved outcomes for youth success, greater public safety, and reduced transfers of youth into the adult criminal justice system. The San Bernardino County Probation Department also has a Research Unit dedicated to increasing and refining data collection, which will remain a priority.

Since May 1, 2025, San Bernardino County Probation Department has continued to utilize the resources above for outcome measures to determine the results of programs and interventions.

PART 9: OTHER UPDATES: DESCRIBE ANY PROGRESS ON ELEMENTS SINCE THE PREVIOUS ANNUAL PLAN SUBMISSION: (WELF. & INST. CODE § 1995 (D)(8))

Provide a description of progress made regarding any plan elements and any objectives and outcomes in the prior year's plan, to the extent that they have not already been described above.

The San Bernardino County Probation Department has no additional updates to report since May 1, 2025.

PART 10: PRIOR-YEAR EXPENDITURES-SUMMARY OF OUTCOMES/IMPACTS: (WELF. & INST. CODE § 1995(D)(9))

Please use the table provided below to summarize prior-year expenditures (e.g. for the 2025 JJRBG plan the summary entered into the table below would be for FY 2024-25 expenditures) in accordance with Welf. & Inst. Code §1995(d)(9), which requires counties to report:

- **Total expenditures of block grant funds;**
- **Whether these expenditures were consistent with the plan described in subdivision (a); and**
- **How the expenditures improved outcomes for the realignment target population described in Section 1990.**

Please itemize expenditures by each subject area described in Part 4 of the 2025 JJRBG County Plan Template.

Expenditure Subject Area[1]	Total Expenditures ($)	Were the expenditures consistent with the plan described for this subject area (i.e., were the goals described for this expenditure subject area met)? (Yes/No)	Please describe why the expenditures were or were not consistent with the plan described for this subject area.	Please describe how the expenditures improved outcomes for the realignment of target population described in Section 1990.
Mental Health, Sex Offender Treatment	$89,585	Yes	The County entered into a Board of Supervisors (BOS) approved contract with a vendor to provide this treatment service.	Provided evidence-based mental health services, including individual and group therapy, medication management, and psychiatric evaluation, as well as specialized sex offender treatment aligned with risk-needs assessments and trauma-informed care principles.
Healthy Adolescent Development	$410,750	Yes	The County entered into a Board of Supervisors (BOS) approved contract with a	Provided recreation, arts, and life skills programming that strengthens decision-making abilities and

[1] This table corresponds to Part 4 of the JJRBG County Plan Template and fulfills the reporting requirements of WIC §1995(d)(9) by itemizing expenditures according to the five areas of need or development for realigned youth described in WIC §1995(d)(3)(A)–(E).

Expenditure Subject Area[1]	Total Expenditures ($)	Were the expenditures consistent with the plan described for this subject area (i.e., were the goals described for this expenditure subject area met)? (Yes/No)	Please describe why the expenditures were or were not consistent with the plan described for this subject area.	Please describe how the expenditures improved outcomes for the realignment of target population described in Section 1990.
			vendor to provide this treatment service.	promotes positive peer relationships.
Family Engagement	$39,359	Yes	The County entered into a Board of Supervisors (BOS) approved contract with a vendor to provide this treatment service.	Provided family therapy, parent support services, transportation assistance, and therapeutic programming for youth and families, while promoting active family engagement in the rehabilitation process.
Planning and Linkages for Employment, Housing, and Continuing Education	$139,856	Yes	The County entered into a Board of Supervisors (BOS) approved contract with a vendor to provide this treatment service. In addition, the county utilizes Memoranda of Understanding (MOUs) with county partners to coordinate and deliver services.	Provided vocational training and certification opportunities, supported by partnerships with Community-Based Organizations for workforce readiness and financial literacy. Services also included high school diploma completion, special education support, access to community college, pathways to four-year universities, and transitional housing assistance to support successful youth reentry into the community.

Expenditure Subject Area[1]	Total Expenditures ($)	Were the expenditures consistent with the plan described for this subject area (i.e., were the goals described for this expenditure subject area met)? (Yes/No)	Please describe why the expenditures were or were not consistent with the plan described for this subject area.	Please describe how the expenditures improved outcomes for the realignment of target population described in Section 1990.
Evidence Based, Trauma Informed and Culturally Responsive Programs	$227,823	Yes	The County entered into a Board of Supervisors (BOS) approved contract with a vendor to provide this treatment service. In addition, the county utilizes Memoranda of Understanding (MOUs) with county partners to coordinate and deliver services. The county's contracted vendors and county partners utilize evidence based and trauma-informed care models that promote rehabilitation, resiliency and positive outcomes for youth.	Provided evidence-based and trauma-informed care tailored to the needs of youth, including gender-responsive and culturally specific programming delivered in partnership with Community-Based Organizations.

Instructions to add more rows:

To add additional rows to the table, place your cursor in the last row and last column, then press Tab. This will automatically insert a new row below. Alternatively, right-click in the table, select Insert, and choose Insert Rows Below.

(1) A description of the realignment target population in the county that is to be supported or served by allocations from the block grant program, including the numbers of youth served, disaggregated by factors including their ages, offense and offense histories, gender, race or ethnicity, and other characteristics, and by the programs, placements, or facilities to which they are referred.
